August 2024

SUPERSEDES ALL PRIOR VERSIONS

Your Destination for a Next-Level Customer Experience

MasterBrand Connect™ is a one-stop information portal aimed at enabling you to be in the driver's seat of your success. Within Connect, you have access to personalized dashboard content, improved order tracking, customer service case visibility, and much more. The result is an easy to navigate system with must-have information at your fingertips.

Feature Highlights:

- ✓ Mobile-friendly design with improved navigation and easier-to-use interface
- ✓ Unique log-ins per user with personalized content and preferences
- ✓ Improved search capability including POs and acknowledgement numbers
- ✓ Customer Service case visibility
- ✓ More timely order tracking with connected order visibility
- ✓ Communication preference selections
- ✓ Self-service account changes like phone, address and email

Check it out today at masterbrandconnect.com, or scan the code.

If you do not have a MasterBrand Connect account, please contact your Sales Representative to sign up.

ELEVATE Your Experience

YOUR GUIDE TO WHAT'S JUST IN

AUGUST 2024

Indulge in all that's new for Mid Continent®. You'll find inspiring new finishes, a trend-forward door style, and a variety of new SKUs at your fingertips to bring fashionable and functional designs to life.

LET'S JUMP IN.

COLOR BY NUMBER

1. Achieve the color vision of your mind's eye with Mid Continent's new Color By Number program! This program includes any color in the Sherwin-Williams® and Benjamin Moore® paint families, giving you thousands of choices to create your unique space.

DOOR AND FINISH OPTIONS

This section contains information regarding the global options you will choose that will apply to your entire order: species/material characteristics, door options, and finish options.

CHARACTERISTICS OF WOOD TYPES

No matter which species you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat or moisture. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Cherry is characterized by its red undertones, but may vary in color from white to a deep, rich brown. Cherry is a close-grained wood with fairly uniform texture, revealing pin knots and curly graining. All wood will age with time and the finish will darken. This is especially true for Cherry. This is a sought-after quality in Cherry cabinetry, and those who select it expect this evolution.

Maple is a close-grained hardwood that is predominately white to creamy-white in color, with occasional reddish-brown tones. While Maple typically features uniform graining as compared to other wood species, characteristic markings may include fine brown lines, wavy or curly graining, bird pecks and mineral streaks. These traits are natural and serve to enhance Maple's natural beauty.

Oak is a strong, open-grained hardwood that ranges in color from white to pink and reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Oak may also contain wormholes and wild, varying grain patterns. This distinct graining is considered a desirable quality.

CHARACTERISTICS OF RUSTIC WOOD TYPES

***Rustic Alder** is characterized by its light brown and reddish undertones and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes through the panel. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks. It is slightly softer than Maple and Cherry and stains beautifully, thus its appeal.

***Rustic Hickory** is a strong, heavy hardwood known for distinctive graining patterns. Color will vary from nearly white to dark brown, with wild flowing grain patterns and dramatic color variations. Rustic Hickory can have a fine uniform grain to large knots appearing black and brown in color of various shapes and sizes, sapwood, mineral and some checking.

Sound Closed Knot (not moveable) – Expected up to approximately 3" in diameter

Sound Knot with Cracks – Expect sound knots with open cracks up to approximately 1" in length

Open Knot (through door) – Expected with open area up to approximately 3/4" in diameter

Note: 3/4" diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

Unsound Knot (moveable core) – Not to be expected

Knot Cluster (cluster of tight sound knots) – To be expected (more prevalent in Rustic Alder)

Worm Holes/Pin Holes (can go through the door) – Can be expected up to approximately 1/4" in diameter

Worm Tracks – Can be expected in sizes up to approximately 1/8" wide by 8" long

*Doors, drawer fronts, and selected trim items will feature rustic characteristics. Other areas of the product will utilize standard Alder or standard Hickory, respectively.

CHARACTERISTICS OF MDF

MDF (Medium Density Fiberboard) is an engineered wood product that is composed of wood fibers and resin that are then compressed to create a smooth uniform surface with a consistent core. Painted MDF eliminates the appearance of naturally occurring wood characteristics such as grain patterns, knots or mineral streaks, and is more resistant to warping, expanding and contracting due to environmental changes than solid hardwoods.

CHARACTERISTICS OF SPECIALTY LAMINATE

Specialty Laminate features design leading, high definition wood grain or high gloss laminates on doors, drawer fronts, overlay fillers, and Premium trim items. The surfaces are laminate based materials with an integrated top coat that provides superior beauty, durability, and performance. The core panel material is made of MDF to ensure a consistent and stable product.

Additional coordinating trim items in the cabinet box color are also available. Grain characteristics will vary across laminated parts to mimic natural wood grain patterns. A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

CHARACTERISTICS OF PURESTYLE™

PureStyle™ is the process of wrapping durable laminate materials around door frames and select trim and premium mouldings resulting in products with crisp styling features and a surface that provides abrasion resistance. PureStyle™ products are wrapped (versus form pressed onto a Medium Density Fiberboard (MDF) slab like thermofoil) and have a clear, integrated top coat for superior durability. The lineals and core panel material are made of MDF to ensure a consistent and stable product.

These doors offer the durability of a laminate and the beauty of paint and finished wood while bringing peace of mind to those who care about creating a better environment—both inside and outside of their homes.

Textured wood grain PureStyle™ doors feature design leading, high definition wood grain laminates on doors, drawer fronts, overlay fillers, and Premium trim items. The surfaces are laminate based materials with an integrated top coat that provides superior beauty, durability, and performance. The core panel material is made of MDF to ensure a consistent and stable product. Additional coordinating trim items in the cabinet box color are also available.

A heat shield is required to separate all PureStyle™ products from heat producing units to be in compliance with cabinet warranty.

In Species Availability charts and notes throughout book, PureStyle™ will be referred to as Laminate.

In keeping with our practice of continuous product improvement and/or to maximize efficiencies, Mid Continent® Signature™ Cabinetry may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with Mid Continent Signature Cabinetry's commitment to quality.

Door Style Price Point Reference Chart

Your Mid Continent® Signature™ price guide contains charts with prices for each cabinetry product, arranged according to a numerical code. Use the chart below to determine the price code for your preferred cabinetry style.

OVERLAY SPECIFICATIONS

F6

DOOR STYLES

Full Overlay

The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Full Overlay

Modified Full Overlay

Wall and Tall Cabinets: The door and drawer fronts overlay the frame exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall cabinets. Typical units with a center stile expose 1/2" of that stile.

Base Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Modified Full Overlay (Wall and Tall)

Modified Full Overlay (Base)

*34 1/2" high application shown. On 32" high Full Overlay three drawer applications (drawer bases and sink bases with drawers), the reveal above the bottom drawer front is 1/2".

- One double door center stile cabinet has the same reveal as two single door cabinets.

OVERLAY SPECIFICATIONS (cont'd)

Partial Overlay

F7

DOOR STYLES

<p>Partial Overlay</p>	<p>The door and drawer fronts overlay the face frame 1/2", exposing 1" of the frame both on the stile and rail members. Typical wall and base cabinets with a center stile expose 2" of that stile.</p>	 <p>1" reveal at sides, top, and bottom of front frame</p>
<p>Exceptions on Face Frame Reveals</p>	<ul style="list-style-type: none"> • Some oven units have 3" stiles and 9" intermediate rails (designed for universal flexibility of cut-out options) that create various reveals. • Blind corner wall and base cabinets expose different center stile reveals. Diagonal corners also vary. • Please see the dimensional charts for oven units and blind bases located in those sections. 	

*On Partial Overlay 2DB__ (Two Drawer Bases), reveal above the bottom drawer front is 2".

DOOR STYLE SPECIFICATIONS

Cherry

- When Cherry door styles are ordered, it is recommended to apply a finished end option or a veneer end panel for exposed ends due to the natural aging of Cherry.

Maple

- When a Paint or Paint with Glaze finish is specified, the door and/or drawer front center panel may be constructed of Medium Density Fiberboard (MDF), except when Windsor door style or Heirlooming are specified. MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction. Doors, drawer fronts, and additional facings may consist of other hardwood components.

MDF

- MDF door styles will use Maple for trim and panels, refer to Maple in the Species Availability charts.

Rustic Alder & Rustic Hickory

- Doors, drawer fronts, and selected trim items will feature rustic characteristics. Other areas of the product will utilize standard Alder or standard Hickory, respectively.

High Gloss

- When Premium Panels are ordered in High Gloss, panels will not have grain.
- When WEP1230P, BEPP, and TEP_P panels are ordered in High Gloss, front of panel will be high gloss, back of panel will be white laminate, and edgbanding on front edge will match door and drawer front edgbanding selection.

All Door Styles

- All doors and drawer fronts are 3/4" thick unless otherwise noted.

Door and Drawer Front Side Profiles

- Veneer and MDF components are shown with gray shading on side profiles. Solid-wood components do not have shading.
- On MDF door styles, all door and drawer front components will be in MDF.

Wood Grain

- Simple FO DFF5PCNR and Windsor have a vertical grain direction on the drawer front center panel.
- See reference images for wood grain direction on all other door styles.

- See chart to the right for 5-piece drawer front dimensions representative of a 9" wide base cabinet when specifying decorative hardware.

*When a Paint or Paint with Glaze finish is specified, the door and/or drawer front center panel may be constructed of Medium Density Fiberboard (MDF), except when Heirlooming is specified. MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction. Doors, drawer fronts, and additional facings may consist of other hardwood components.

Special Notes:

- CH and CW modifications are not available with this door style.
- Silhouette glass is not recommended for use with this door style.

5-piece Drawer Front Dimensions

Drawer Front Width	8 1/2"
Drawer Front Height	6 1/4"
Panel Flat Width	3 1/2"
Panel Flat Height	1 1/4"

*When a Paint or Paint with Glaze finish is specified, the door center panel may be constructed of Medium Density Fiberboard (MDF). MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction. Doors, drawer fronts, and additional facings may consist of other hardwood components.

Special Notes:

- CH and CW modifications are not available with this door style.

- Solid Reverse Raised Beaded Panel
- Full Overlay
- Slab Drawer Front
- Will not use MDF center panel on Paint finishes. See Door Style Specifications page for more details.
- Beaded center panel on 5-piece drawer fronts will not align with doors when used on cabinets with double doors and a full width drawer.

- See chart to the right for 5-piece drawer front dimensions representative of a 9" wide base cabinet when specifying decorative hardware.

Special Notes:

- CH and CW modifications are not available with this door style.
- WTH_ and WVL_ cabinets are not available with this door style.
- BP_VG SKUs do not match spacing on this door style.
- DADOORB in this door style has a maximum width of 23 1/2" for a single width center panel; doors between 23 9/16" and 35 3/4" wide have a center mullion between the center panels.
- DA5PCDF grain direction is vertical on this door style. Maximum width for DA5PCDF on this door style is 23 1/2".
- When DFF5PC is selected with this door style on a 2DB48, drawer front will have a vertical cross rail with two center panels.

[▲]In Standard construction, cabinets will have matching laminate ends. Where not available, ends will be Natural Maple laminate and a finished end treatment would be needed for an exposed end.

*On wood products, normal movement is typical due to change in climatic conditions. This will cause hairline cracks at stile, rail and panel joints. This hairline cracking is a normal characteristic of painted finishes and will not be considered a reason for product replacement. Finish agreement required, see Policies section at the end of the book.

**Cabinet list includes cabinet price plus any modifications except APC, ET, and PE.

PREMIUM COLOR PALETTE

COLOR BY NUMBER PROGRAM

Mid Continent® Signature™ has partnered with Sherwin-Williams® and Benjamin Moore® to bring thousands of paint color options to our customers in search of the perfect option to suit their vision. The Sherwin-Williams® and Benjamin Moore® Paint Palettes offer paint colors found at stores or online and these broad palettes are available on Maple and MDF.

Your satisfaction is important to Mid Continent Signature so we want you to fully understand the characteristics that make painted finishes so distinctive. It is important to realize that the true beauty of wood cabinetry comes from natural qualities of the wood itself. The textures of natural grain patterns often remain visible in some species and should be accepted as inherent characteristics when selecting cabinetry. When painted finishes are specified, the center panels of the selected style may be constructed of Medium Density Fiberboard (MDF). MDF provides a smoother finish when painted, and is more resistant to warping, expansion and contraction. Doors, drawer fronts, and additional facings may consist of other hardwood components.

Paint finishes are different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks, and seam lines. These will be most notable at stile, rail and panel joints. Joint separation may become more noticeable over time and through several changes. Also over time, there may be slight color shift in these finishes due to continued exposure to natural and artificial light sources and other environmental factors. We mention these characteristics because neither Mid Continent Signature nor your dealer can be held responsible for these conditions and variations.

Paint samples are shown on materials other than wood. Wood will have a different appearance when the color is applied to the actual door or cabinet. This is due to different material properties, textures and sheen. Normal color variation is found from “color swatch to color swatch” and from “paper media to solid wood”.

No changes or cancellations will be accepted after 24 hours from acknowledgment of order.

Quantity of two PAINTPEN will come with original order. PAINTPEN-ADD will allow up to 2 additional pens to be ordered with the original order only.

Code	Description	Price Per Pen
PAINTPEN	Paint Pen Qty. 2	Free with Original Order
PAINTPEN-ADD	Paint Pen Additional	\$54 per Additional Paint Pen with Original Order

When choosing Color By Number, all construction platforms are available. On standard construction, ends will be Natural Maple laminate interior and exterior. Color By Number will not be available on laminate panels.

F27

COLOR BY NUMBER PROGRAM

UNFINISHED

OPTION NAME	DESCRIPTION/LIMITATIONS	UPCHARGE	HEIRLOOMING AVAILABILITY
Unfinished	Must upgrade to PE or APC. When cabinets are finished by an outside source, finish is not covered under warranty. Interiors of cabinets will be Natural Maple laminate. For finishable interiors, MIP must be specified. Cabinets have a species-matching veneer for finishable plywood ends.	No Upcharge	N/A

FINISH TECHNIQUES

OPTION NAME	DESCRIPTION	UPCHARGE
Heirlooming	<p>Available on dark paints on Maple and Oak. Available on select finishes. The finish will be sanded through the base coat to expose the surface of the wood. This type of sand through on the edges and profiles creates a naturally worn appearance. If a finish is chosen with a glaze, the glaze will be applied after the sanding has been done. This will enhance those areas of exposed wood to take on the darker characteristic of the applied glaze. Not available on Rohe, Slab FO, Traditional FO, and Traditional PO.</p> <p>Select trim pieces will feature Heirlooming characteristics. See Trim section for availability.</p>	5% + any applicable premium finish upcharge

SHEEN OPTION

OPTION NAME	DESCRIPTION	UPCHARGE
Matte Sheen	<p>Available on Stains and Stains with Penned Glazes.</p> <p>Replaces standard top coat with a low sheen, non-pigmented top coat on doors, drawer fronts, face frames, trim items, and veneer finished cabinet components in selected finish. Does not affect laminate or clear finished components.</p>	No Upcharge

F28

UNFINISHED / FINISH TECHNIQUES

12-STEP FINISHING PROCESS

- 1. Wood Selection** – The selection of the finest woods is the essential first step of our 12-step finishing process.
- 2. Sanded to Perfection** – Our sanding utilizes a fine grit paper, both with and against the wood grain. This process is completed on a vacuum table, allowing for a wood surface that is free of dust particles.
- 3. Achieving Natural Wood Tone** – Toner is applied to selected finishes, enhancing the naturalistic wood appearance.
- 4. Stain Application** – A hand-sprayed deep penetrating stain is evenly applied to all surfaces for even coverage on all profiles. On multi-step stains and glaze finishes, some non-facing surfaces (such as backs of doors, backs of panels, and matching veneer interiors) may not receive all steps noted. The resulting finish will be complementary and similar in color and have the same catalyzed top coat and cure, but may not result in the same color depth as facing surfaces.
- 5. Removal of Excess Stain** – The wood is hand-wiped to remove excess stain, emphasizing the cabinet's natural wood grain.
- 6. Catalyzed Sealer** – A tough, clear, catalyzed sealer is hand-sprayed on to protect the grain from moisture.
- 7. Drying Process** – For added durability, the sealed wood is oven cured to lock in the beauty of wood.
- 8. Hand-Sanded** – To achieve an ultra-smooth finish, we hand-sand the material one last time.
- 9. Dust Removal** – The resulting loose dust particles are removed from the surface of the wood.
- 10. Catalyzed Top Coat** – A premium quality catalyzed clear top coat is applied to protect the wood from environmental elements.
- 11. Final Top Coat Cure** – The top coat is cured to guarantee the strongest, most beautiful finish.
- 12. Final Inspection** – This last inspection is very thorough, ensuring quality and beauty. Our gift to you is that every cabinet is crafted with care.

CHARACTERISTICS OF GLAZING/PAINT

Penned Glazes

A professional layer of glaze can add another layer of beauty to your cabinets. Our hand-detailed penned glaze application adds depth and dimension to your cabinet's appearance by highlighting the profile of your door style choice.

- Hand-detailed penned glazing will leave a consistent, “penned” appearance around the door profile, and will not change the overall finish or paint base color.
- You should expect the result to yield a subtle to dramatic look based on the complexity of a cabinet door's design.
- Printed materials and online, electronic presentations can only do so much. It's important to both see and touch actual finished samples to ensure your satisfaction.

Paint Finish

Paint may develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish.

CONSTRUCTION FEATURES

	STANDARD CONSTRUCTION	PLYWOOD ENDS (PE)*	ALL-PLYWOOD CONSTRUCTION (APC)*
Doors & Drawer Fronts	See Door Style section for door and drawer front configuration and construction details.		
Face Frames	3/4" solid hardwood.		
I-beam Braces	3/8" furniture board dadoed into face frame, end panels and back panels.		3/8" plywood dadoed into face frame, end panels and back panels.
Cabinet Sides	1/2" furniture board with Natural Maple laminate interiors. Exteriors are laminate that match the color of the face frame where matching laminate ends are available. See Finish Availability section for matching laminate ends availability.	1/2" unfinished veneer plywood with Natural Maple laminate interiors.	
Cabinet Tops & Bottoms (Wall & Tall)	3/8" furniture board with Natural Maple laminate interior and exterior.		3/8" plywood with Natural Maple laminate interior and exterior.
Cabinet Bottoms (Base & Vanity)	3/8" furniture board with Natural Maple laminate interior.		3/8" plywood with Natural Maple laminate interior.
Cabinet Backs	3/8" furniture board with Natural Maple laminate interior. Base cabinets have 3mm system holes for easy drawer and tray installation.		3/8" plywood with Natural Maple laminate interior. Base cabinets have 3mm system holes for easy drawer and tray installation.
Adjustable Shelves	3/4" furniture board with Natural Maple laminate to match interiors. Shelves are adjustable in wall and base cabinets unless otherwise noted.		3/4" plywood with Natural Maple laminate to match interiors. Shelves are adjustable in wall and base cabinets.
Finish	Multi-step finishing process where the finished components are sanded, stained, and sealed before a catalyzed top coat is applied.		
Hinges	Fully Concealed Integrated Soft-close Self Closing, 6-way Adjustable. Hinge features deactivation option. Some cabinets utilize a 170° or 107° 4-way adjustable hinge. See page 320 for details.		
Drawer Box and Roll Tray Construction	All Styles: Four-sided clear coated hardwood. Corners are dovetailed and glued. Drawer bottom is 5.2mm laminated plywood fully captured in box sides, front and back.		
Drawer and Roll Tray Guide	Double fully concealed, roller bearing, self-aligning, full extension guide with soft-close self-closing mechanism and fast clip removal system. Soft-close engages when the drawer or roll tray is approximately 2" from closing, applying resistance to the self-closing mechanism. Optional (Roll Trays): EasyTrax™ (ET) height adjustment system. Standard guides have a maximum weight capacity of 75 lbs. Drawers and roll trays have a maximum weight capacity of 15 lbs. per square foot.		
Toekick	Unfinished furniture board toekick to allow application of finished toeboard materials. A variety of laminate and wood toeboard skins and baseboard mouldings available in 8' lengths; see ACCESSORIES section.		3/8" Unfinished plywood toekick to allow application of finished toeboard materials. Toeboard skins and baseboard mouldings available in 8' lengths; see ACCESSORIES section.
Interior Cabinet Components	A few interior components are manufactured from laminated furniture board because they provide for the most durable, aesthetic application. Some examples include the BCFW48SP (swing-out shelf), SLS33/36 (fixed shelf), and PY36 (swing-out and door mounted racks).

ALL-PLYWOOD CONSTRUCTION UPGRADE (APC)

*All-plywood components meet ANSI/HPVA HP-1 standards and may contain MDF or particleboard.

THINGS TO REMEMBER ABOUT FINISHED ENDS AND CABINET INTERIOR FINISHES

On cabinets with PLYWOOD ENDS (PE) or ALL-PLYWOOD CONSTRUCTION (APC) modifications, cabinet sides are plywood with an unfinished veneer exterior. You can finish the exposed ends in your kitchen with one of several decorative options, as follows:

1. Leave the ends UNFINISHED if the cabinets are installed against each other or against the wall.
2. Purchase a 1/4" VENEER SKIN for field installation. This brings the cabinet side flush with the face frame.
3. Specify FURNITURE FINISHED PLYWOOD ENDS (FPPEB). See page 7 for details.
4. Specify AUTHENTIC ENDS (AUTHL, AUTHR, or AUTHB) or Face Frame and Door on End (FFDL or FFDR). See page 7 for details.
5. Specify cabinets with FINISHED ENDS (FB), factory installed. Both ends of the cabinet use 1/2" plywood veneer panel that is factory finished on the exterior to match the door and frame.
6. Purchase Wall, Base or Tall END DECORATIVE DOOR PANELS (WED, BED, TED). These are a skin and a door that can be attached to finish the exposed end. This will extend the total cabinet run by the thickness of the door.
7. Purchase a Wall MESSAGE CENTER.
8. Cabinets specified with MIP have matching veneer interior and exterior. Some cabinets are provided with standard MIP construction, such as:
 - Wine Rack Cabinets
 - Bookcase Cabinets
 - Base Open Cabinets
9. All Wall Organizer and Wall/Base Apothecary Drawer Cabinets are framed construction and feature 1/2" plywood with matching finished veneer interior and exterior.

DRAWER FRONT OPTIONS

See page 2 for modification compatibility.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS	PRICING
Drawer Front Flat 5-piece (DFF5PC)	Base, tall, and vanity cabinets on select door styles. See Door Style section for availability. OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS	PRICING
Increased Depth (ID)	Most wall and vanity cabinets	Increases the depth of wall and vanity cabinets in 1" increments to a maximum depth of 24". On 24" deep wall models, ID25-ID27 is available. APC is required. Increased depth wall cabinets should be either floor mounted or stacked to maintain stability. Any specified shelving is included and is always full depth. Wall peninsula cabinets may be increased in 1" increments to 18" maximum. Drawer depth will not change. Depth restrictions may apply where depths are available as a standard cabinet. Wall cabinets 12" deep are limited to up to 15" deep on sizes where a 24" deep cabinet is available.	No Upcharge
	Most base, tall, and vanity cabinets without drawers or roll trays	Increases the depth of base, tall, and vanity cabinets without drawers or roll trays in 1" increments to 27". When depth beyond 24" is desired, the 24" deep cabinet must be modified. Any specified shelving is included and is always full depth. Depth restrictions may apply where depths are available as a standard cabinet.	No Upcharge
	Oven Cabinets with only one bottom drawer	Increases the depth of oven cabinets in 1" increments to a maximum depth of 27". When the depth of an oven cabinet with a drawer is increased, drawer depth will not change. Any specified shelving is included and is always full depth.	No Upcharge
	End panels	Increases the depth of end panels in 1" increments to a maximum depth of 36". 31"-36" depths available on plywood panels only. AEL/AER panels are only available in 3" increments up to a maximum depth of 36".	No Upcharge
Reduced Depth (RD)	Most base, tall, and vanity cabinets with drawers or roll trays	Reduces the depth in 1" increments to a minimum depth of 12". Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet. Vanities will be reduced to 18" at no charge.	No Upcharge
	Most base, tall, and vanity cabinets without drawers or roll trays	Reduces the depth in 1" increments to a minimum depth of 6". If reduced depth is less than 9", toekick will not be included. Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet. Vanities will be reduced to 18" at no charge.	No Upcharge
	Most wall cabinets	Reduces the depth in 1" increments to a minimum depth of 6". Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet. Wall top hinge cabinets can only be reduced to 9" depth minimum.	No Upcharge
	End panels	Reduces the depth in 1" increments to a minimum depth of 6".	No Upcharge
	Roll tray kits	Reduces the depth in 1" increments to fit a minimum cabinet depth of 12".	No Upcharge

Loose Toekick (TKP)	Most tall cabinets	Available on 84", 87", and 90" tall cabinets. Removes and ships the toekick separately. Not compatible with other toekick modifications. Pedestal is designed to create a Recessed Left or Right Toekick (RECTKL or RECTKR) application during field installation, or can be centered. Pedestal must be covered with toeboard material.	No Upcharge
Recessed Island Toekick (RECTKALL)	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates a 3 3/8" recessed toekick on the right, left, and back of cabinet. The entire toekick area will have non-matching material and requires any exposed toekick area to be covered. RECTKALL only available on cabinets at least 15" deep.	No Upcharge
Recessed Toekick on Back or Side (RECTKBK) (RECTKL) (RECTKR)	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates a 3 3/8" recessed toekick on the back (RECTKBK), left (RECTKL), or right (RECTKR). When either the RECTKR or RECTKL are used, FTK is NOT available. The entire toekick will have non-matching material and requires any exposed toekick area to be covered. On RECTKL and RECTKR, the back will have a 3/8" recessed offset and non-specified side will have a 1/2" recessed offset to allow for application of toeboard material. 93" and 96" tall cabinets have RECTKL or RECTKR standard on loose pedestal. For recess toekick applications of both left and right, order RECTKL.R. On 9" wide cabinets, only one side can be recessed. RECTKBK only available on cabinets at least 15" deep.	No Upcharge

- Custom door sizes available. See pages 274-278.
- For cabinet availability, please see modification grids.
- CG.TOP and CG.BTM are specified on cabinets with upper and lower doors to designate which doors should be Cut-for-glass. See Door Options grid for SKU availability.
- When a decorative door option is chosen in 20/20, Matching Interior Plywood (MIP) is a preselected option. If MIP is not desired, it can be deselected by choosing NOTMIP.
- All textured glass panels will be drop shipped separately from the cabinet order.
- Glass installation clips will ship with the doors and/or cabinets.
- The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.

List per Door

Cut-for-glass Door To Fit

96

To price Cut-for-glass Doors attached to a cabinet, add the list price per door to the cabinet price (MIP modification upcharge will be applied to the cabinet price if matching interior is desired).

For a door only (not specified on a cabinet), add the list price for a door only to the Cut-for-glass door list price. See Doors and Drawer Fronts on page 321 for details.

MULLION DOORS (MD)

Glass not included

Mullion

- Custom Door Sizes not available.
- For Mullion Door availability, please see modification grids in wall section.
- If ordered in an MDF door style, door will be Maple.
- Pricing includes mullion door only. Glass may be ordered separately. See page 33 for details.
- Not compatible with Beveled glass.
- MD.TOP and MD.BTM are specified on cabinets with upper and lower doors to designate which doors should be Mullion Doors. See Door Options grid for SKU availability.
- Shelves will not align with mullions.
- When a decorative door option is chosen in 20/20, Matching Interior Plywood (MIP) is a preselected option. If MIP is not desired, it can be deselected by choosing NOTMIP.
- All textured glass panels will be drop shipped separately from the cabinet order.
- Glass installation clips will ship with the doors and/or cabinets.
- The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.

34 1/2" HIGH VANITY CABINETS

CABINET DIMENSIONS

DIMENSIONS FOR CORNER INSTALLATIONS (45° DIAGONAL)

12" DEEP CABINETS

For dimensions more than noted, add 2 1/8" to wall dimensions for every 3" increment of cabinet front.
Example: 39" cabinet front would be 37 1/2" + 2 1/8" = 39 5/8".

NOTE: See DCM8 moulding (page 292) for use between cabinets adjacent to 45° corner installations.

24" DEEP CABINETS

For dimensions more than noted, add 2 1/8" to wall dimensions for every 3" increment of cabinet front.
Example: 39" cabinet front would be 49 1/2" + 2 1/8" = 51 5/8".

NOTE: See DCM8 moulding (page 292) for use between cabinets adjacent to 45° corner installations.

INSTALLATION HEIGHT REQUIREMENTS

Height of ceiling needs to be considered for installation of tall cabinets. Cabinet height below includes toekick area:

Cabinet Height	Minimum Installation Height for Cabinet Depth					
	12"	15"	18"	21"	24"	27"
84"	84 7/8"	85 11/32"	85 15/16"	86 19/32"	87 3/8"	88 1/4"
87"	87 27/32"	88 5/16"	88 27/32"	89 1/2"	90 1/4"	91 3/32"

96" PWT..	—	—	—	98 9/32"	98 31/32"	99 3/4"

*Separate pedestal base included with cabinet to be installed after cabinet is in an upright position.

DESIGN CHECKLIST

CONSTRUCTION OPTIONS

Consider exposed end options:

- Modify exposed cabinet ends to PE or APC.
- Adding a veneer finished end (FB) will age uniformly with the rest of the kitchen.
- Apply 1/4" skin to hide 1/4" reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- Apply decorative door kit (BED, WED, TED). This kit includes 1/4" skin, decorative doors, and screws for field installation.
- Upgrade exposed cabinet ends with Authentic Ends (AUTHL/AUTHR/AUTHB) or Furniture Finished Plywood Ends (FPPEB) Modification.

WOOD AND FINISH CHARACTERISTICS

Review specific details with the customer:

- Mineral Streaks, Birdseye Dots, Grain Variations (especially Rustic Alder and Rustic Hickory).
- Color Variations/Darkening (especially Natural/Light Cherry).
- Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frame.
- Underside of cabinets are Natural Maple. Use light rail or cabinet panel edge and skin to hide, especially when designing with peninsula wall cabinets. For cabinets that are bridged between taller adjacent cabinets, specify PFINBTMB modification. See page 12 for more details.

INNOVATIVE OPTIONS

Review storage and usage needs with Customer. See page 48 for complete chart.

- Cooking Solutions:
 - Wall Spice Rack Cabinet
- Storage Solutions:
 - SuperCabinet™
 - Base Rotating Deep Bin
 - Pegged Dish Organizer
 - Wall Message Center
- Clean-up Center:
 - Trash/Recycle Basket Base

CLEARANCES

- Add fillers between end cabinets and walls on full overlay door styles.
- Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.

Maintain a minimum clearance of 3" by pulling blind corners as follows:

- Full Overlay: 1 1/4", Standard Overlay 1/2". (More is needed in certain situations such as when adjacent to an appliance or when using oversized pulls or knobs.)
- Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, swing-out units, etc.). Doors on these cabinets must open fully for accessories to be functional.
- Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Qualify customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

FILLERS

- Place fillers toward end of run where least conspicuous if needed.
- Attach overlay fillers on top of the base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.
- Add a filler at least 6" wide to accommodate a decorative onlay when the filler is used as valance.

VARYING HEIGHTS AND DEPTHS

- Also increase the depth of a wall cabinet run when you increase the height (so moulding on adjacent cabinet will kill into the side of the taller cabinet).
- Skin the sides of tall cabinets to keep adjacent base and wall cabinets out from reveal of tall cabinet.
- Add increased depth on tall end panels for a built-in look for deep refrigerators.
- Account for the additional support needed for wall cabinets with a depth of 18" or greater. This can be achieved by installing a soffit or end panels.

MATCHING INTERIOR CABINETS/GLASS OPTIONS

- Verify cut-for-glass or mullion door option is available on desired cabinet size. (See pages 25-28 for available cut-for-glass/mullion door sizes.)
- Verify glass insert option is available for desired cut-for-glass door size chosen.
- Verify matching interior option has been selected for all open or glass cabinets.
- Verify mullion door lite grid matches customer expectations.

MOULDINGS

- Order rosettes and plinths in beaded or fluted styles to match fillers.
- Verify correct amount of crown moulding has been ordered.
- Order toekick caps.
- Order extra scribe.

ISLANDS AND PENINSULAS

- Consider standard height bars are 34 1/2" tall and require 19" knee space. Raised bars are 42" tall.
- Consider base peninsula cabinets (P) are 24 1/4" deep and require 12" of knee space. Use back panels/doors to flush non-P cabinets with P cabinets.
- Use recess toe on sides and back or BBM8 when using multiple base cabinets to create an island.
- Use outside corner moulding if a skin is exposed on the back of the island.

APPLIANCES

- Note for all consumers, appliances are not included with any cabinetry product.
- Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- Verify refrigerator door has enough clearance to open beyond 90° so refrigerator drawers can be utilized. Refer to appliance manufacturer's specs.
- Add TF696FH, as it may be required to frame around built-in microwave ovens and other built-in items. Refer to appliance manufacturer's specs.
- Order appliance panels.

SPECIAL CONSIDERATIONS

- Consider V-groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

MISCELLANEOUS

- Order full size touch-up kit (mini touch-up kit included with standard sink base).

TIPS TO THE INSTALLER

Proper wall stud or ceiling joist installation is essential for Wall and Peninsula cabinets to support weight. Whenever possible, cabinets should be attached to each other for additional strength. Excessive weight should not be put on cabinets hung by themselves. Shimming may be required to ensure proper alignment. Wallboard alone is not strong enough to support the cabinets.

Our Warranty does not cover damage caused by improper installation. Please be sure to install cabinets properly. If you have questions, please contact your representative or customer service.

kitchen planning guidelines

46

DOOR/ENTRY

- Door opening should be at least 32" wide, requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- Entry door should not interfere with safe appliance operation or appliance doors.

DISTANCE BETWEEN WORK CENTERS

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

SEPARATING WORK CENTERS

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

WORK TRIANGLE TRAFFIC

- Major traffic patterns should not cross through the basic work triangle.

WORK AISLE

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

WALKWAY

- The walkway width should be at least 36".

TRAFFIC CLEARANCE AT SEATING

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

SEATING CLEARANCE

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner and at least 18" knee space.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

CLEAN-UP/PREP SINK PLACEMENT

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

CLEAN-UP/PREP SINK LANDING AREA

- Include at least a 24" wide landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

PREPARATION/WORK AREA

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

DISHWASHER PLACEMENT

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

WASTE RECEPTACLES

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

AUXILIARY SINK

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height as the sink.

REFRIGERATOR LANDING AREA

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under-counter style refrigerator.

COOKING SURFACE LANDING AREA

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

COOKING SURFACE CLEARANCE

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave/hood combination is used, then the manufacturer's specifications should be followed.

COOKING SURFACE VENTILATION

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up air may need to be provided. Refer to local codes.

COOKING SURFACE SAFETY

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

MICROWAVE OVEN PLACEMENT

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

MICROWAVE LANDING AREA

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

OVEN LANDING AREA

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

COMBINING LANDING AREAS

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

continued

kitchen planning guidelines (continued)

COUNTERTOP SPACE

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

STORAGE

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", for a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

STORAGE AT CLEAN-UP/PREP SINK

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

CORNER CABINET STORAGE

- At least one corner cabinet should include a functional storage device.

ELECTRICAL RECEPTACLES

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

LIGHTING

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

bathroom planning guidelines

DOOR/ENTRY

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- The door area should include clear floor space for maneuvering which varies according to the type of door and the direction of the approach.

CEILING HEIGHT

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

CLEAR SPACE

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of a lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

SINGLE LAVATORY PLACEMENT

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

DOUBLE LAVATORY PLACEMENT

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

LAVATORY/VANITY HEIGHT

- The height for a lavatory varies from 32" to 43" to fit the user.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

SHOWER SIZE

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

STORAGE

- Provide adequate, accessible storage for toiletries, bath linens, grooming and general bathroom supplies.
- Storage of frequently used items should be 15" to 48" above floor.

ELECTRICAL RECEPTACLES

- All GFCI receptacles should be located at electrical appliance points of use.

Load bearing floors and shelves can support 15 lbs. per square foot. Warranty does not cover overloading beyond this point.

See the Modification/Upgrade Compatibility Chart on page 2 for details.

All Wall Cabinets are 12" deep unless otherwise noted.

When varying heights, make sure to also vary depths to allow moulding to end against adjacent side of cabinet.

Use space fillers where needed (S96X14) to avoid using skins when varying depths; the fillers are used to make up the 1/4" reveal behind the face frame.

Use FPEB modification or apply an end panel skin to create a flush end on the side of a wall cabinet if installed at the end of a run for ease of moulding installation.

FPEB modification is recommended for non-stacking applications. Use a 1/4" skin for stacking applications.

WALL TOP HINGE, 9" HIGH

	Price Point	1	2	3	4	5	6	7	8	9	10	11	12
WTH249		544	635	662	689	715	740	782	813	848	876	903	976

- 24" Wide (WTH249) uses standard configuration doors. See Door Style Specifications page in Door Style section for details on doors with grain pattern exceptions.
- 30"-36" Wide (WTH309-WTH369) use non-standard configuration doors. See Door Style Specifications page in Door Style section for details on doors with grain pattern exceptions.
- Not available on all door styles. See Door Style section for exceptions.
- Glass not available.
- Door lift mechanism tension can be field adjusted.
- Depth can be reduced to a minimum of 9".
- Door will open a maximum of 107°. For applications close to a ceiling, door angle can be restricted to 75° with a Wall Top Hinge Restriction Clip (WTHRESCLIP75, see page 320).
- Door will not have standard hinges and may have visible 3/16" diameter holes used during finish processing.
- Lift mechanism not available for order for field installation, only available factory installed.

- 24" Wide (WTH241524) uses standard configuration doors. See Door Style Specifications page in Door Style section for details on doors with grain pattern exceptions.
- 30"-36" Wide (WTH301524-WTH361524) use non-standard configuration doors. See Door Style Specifications page in Door Style section for details on doors with grain pattern exceptions.
- Not available on all door styles. See Door Style section for exceptions.
- 24" deep cabinets must be fully supported by screws installed in a structural member in the ceiling or soffit, and into adjacent cabinets or tall panels.
- Load limit is 15 lbs. per square foot of load bearing surface.
- Art Glass not available.
- Cabinet may utilize one or two lift mechanisms depending on door size and weight. Door lift mechanism tension can be field adjusted.
- Depth can be reduced to a minimum of 9".
- Door will open a maximum of 107° due to hinges. For applications close to a ceiling, door angle can be restricted to 86° with a Hinge Angle Restriction Clip (HINGERESCLIP, see page 320).
- Lift mechanisms and mounting brackets will be visible if used with transparent textured glass.
- Lift mechanism not available for order for field installation, only available factory installed.

- Door-mounted pull-out with a chrome wire rack that extends fully to the front of the cabinet then opens to the side for easy accessibility to contents. Designed for use above refrigerators or other high applications. Soft-close not included.
- Available installed in either the left side, right side, or both sides.
- For sufficient pull-out clearance, 13 1/8" of adjacent space is required for door to open fully when installed near a wall or corner.
- Chrome rack is 10" wide and 20 13/16" deep.
- 24" deep cabinets must be fully supported by screws installed in a structural member in the ceiling or soffit, and into adjacent cabinets or tall panels.
- Load limit is 20 lbs. per pull-out.

- Door-mounted pull-out with a chrome wire rack that extends fully to the front of the cabinet then opens to the side for easy accessibility to contents. Designed for use above refrigerators or other high applications. Soft-close not included.
- Available installed in either the left side, right side, or both sides.
- For sufficient pull-out clearance, 13 1/8" of adjacent space is required for door to open fully when installed near a wall or corner.
- Chrome rack is 10" wide and 20 13/16" deep.
- 24" deep cabinets must be fully supported by screws installed in a structural member in the ceiling or soffit, and into adjacent cabinets or tall panels.
- Load limit is 20 lbs. per pull-out.

² Not available on 39", 42", 45", and 48" wide
³ Not available on 39" wide

Wall Corner Cabinets

- Wall corner cabinets may be installed flush to the wall (left) or pulled up to 3" away from wall (right) to accommodate odd dimensions in a kitchen design. In either case, the adjoining run of 12" wall cabinets plus a 3" filler will butt against the solid-wood panel.
- When a cabinet is "pulled" it will use proportionally more wall space, for example, a 30" wide WC pulled 2" will use 32" of space.
- The L or R in the cabinet's nomenclature indicates the location of cabinet void.
- Blind side of wall corner cabinets cannot be installed next to a range hood or microwave shelf unit due to door interference.

NOTE: All outside stiles are 1 1/2" wide

Model	A Recommended Space	B Max. Pull ¹	C Max. Space	D Face Frame Opening	E* Full Overlay At Min. At Max.		E Partial Overlay At Min. At Max.		F Actual Cabinet

- Includes one 3/4" shelf with six mounting screws. Microwave shelf extends beyond the front of the cabinet by 6 1/2", for a total shelf depth of 18 1/2".
- 42" high cabinets include one adjustable shelf in the upper section.
- Microwave cabinet must be attached to wall stud and adjacent cabinets on both sides for support.
- When ID is ordered, shelf will not be included with cabinet.
- When placed at a different height than adjacent cabinets, FPFB modification is recommended.

All Base Cabinets are 34 1/2" high and 24" deep unless otherwise noted.

Base Cabinets are shipped with an unfinished toekick. Finished toekicks in matching wood veneer or laminate must be ordered separately and field installed.

Drawer box reduces in depth in 3" increments. Spacer blocks are used for drawer hardware.

FPEB modification is recommended for non-stacking applications. Use a 1/4" skin for stacking applications.

- Nomenclature represents left to right order of interior components.
Example: BSC30RP = Base SuperCabinet™ 30" Roll-out Pull-out.
- Shelves are adjustable and 20" deep.
- Cabinets utilize 170° hinge. For sufficient pull-out clearance, 12" of adjacent space is required for door to open 170° when installed near a wall or corner.
- Each door features a chrome and wood three-tiered rack.
- Door rack width is 9 3/8".
- Door rack depth is 3".
- Integrated soft-close hinge not included. Premium door mechanism installed.

Max. Sink Widths if cut-out is 4" back from face of front frame

- Edges beveled at 45°.
- Mini Touch-up Kit (MTUK) included. MTUK includes small touch-up marker and small fill stick.
- For sufficient dishwasher door clearance and loading/unloading space, a 15" wide base cabinet is recommended for use between a corner sink base and dishwasher.
- For ACS36, full overlay styles use the same width doors as partial overlay styles (14 1/2" wide) with a partial overlay hinge (38NPOHINGE) to allow for proper door clearance with adjacent cabinets.

[†]ACS42 has butt doors.

Model	Wall Width	Frame	Maximum Sink Width	Maximum Sink Depth

- Top, back, and bottom are veneer plywood.
- Recommend installation between two cabinets. If installed on the end of a run or adjacent to an appliance, must use a 3/4" thick end panel.
- Filler is included but unattached.
- Install unit before removing shipping brace and attaching filler.
- Overlay application includes profiled full overlay filler.
- Decorative hardware required on base units.
- Toe-kick not included; must be built up in the field.
- All styles feature a natural finish soft-close wood pull-out with adjustable shelves and chrome rail sides.
- BBCPO3 and BBCPO6 will not feature sand-through characteristics if ordered with Heirlooming Technique.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.

All Universal Access Cabinets are 32 1/2" high unless otherwise noted.

Standard Universal Access toekick is 4 1/2" tall, which will align with base cabinets. Cabinets are shipped with an unfinished toekick. Finished toekicks in matching wood veneer or laminate must be ordered separately and field installed.

Full depth shelf kits are available for field installation. See page 306.

EXR	Extended Stile - Right		

Reduced Depth available to 6" on tall cabinets without drawers or roll trays. Reduced Depth available to 12" on tall cabinets with drawers or roll trays. Depths reduced to 6"-8" will not include toekick/pedestal.

Utility cabinets with depths of 12" or less must be installed to studs in wall or onto the end of another tall cabinet.

Separate pedestal base included but may be packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toekick application during field installation, or can be centered. Pedestal must be covered with toeboard material. Pedestal toekick grain runs horizontally.

Remember to apply FPEB or add an end panel skin to all tall cabinets when installing next to a base and a wall cabinet to avoid notching the countertop around the face frame.

FPEB modification or end panel skin is recommended when placing a tall cabinet adjacent to a shallower depth cabinet in a position where the end will be exposed; this will aid in adjacent countertop installation and moulding application.

Tall mitered door styles and laminate door styles will feature one center panel; other door styles will feature two center panels.

Horizontal grain doors greater than 48" high will be two doors doweled together.

- Recommended for stacking with wall cabinets to create tall utility cabinets for designs greater than 96". Because of exposed seam when stacking, be sure to use an end panel skin to connect the seam on the side of the stacked cabinets. FPFB is not recommended.

- Includes adjustable shelves and broom clip packaged separately (not installed):
84"-87" tall - four shelves
90"-93" tall - five shelves
96" tall - six shelves
- Designed to be installed onto an adjacent 24" deep tall cabinet.
- For proper installation, adjacent cabinet must have FPEB or 1/4" skin applied.
- 6" overlay fillers can be used on the side to add a decorative touch (Full overlay door styles only).
- Does not include toeboard or pedestal.
- Broom clip mounts to the cabinet back panel.
- Broom clip is also available as an accessory for field installation. See page 311.

- Features magnetic whiteboards on back of lower doors, one magnetic black mesh pencil holder, charging station with power strip, black plastic grommet for power cord, key hooks, and coat hooks. Accessories are field installed.
- Charging station functions as an adjustable shelf, features five cord cut-out areas and includes a UL listed power strip with three standard 110-volt plug-ins and two USB charging ports.
- One adjustable shelf in upper section on 90" and 93", two adjustable shelves for 96", and three adjustable shelves in lower section.
- Authentic Ends are standard on one side. Specify AEL model for installation on the right side of a tall cabinet. Specify AER model for installation on the left side of a tall cabinet. Opposite end panel will feature FPEB construction (if decorative doors are desired on both sides of cabinet, order No Hinge Route doors for a Tall Pantry Pull-out).
- Designed to be installed onto an adjacent 24" deep tall cabinet.
- For proper installation, adjacent cabinet must have FPEB or 1/4" skin applied.
- Does not include toeboard or pedestal.
- Consult local electrical/building codes for proper installation.

- Shelves on swing-out units, mounting rails, and door racks have a furniture board core with natural finish wood fronts and metallic finish wire rails. Door mounted rack includes 6 adjustable shelves and one fixed shelf. Swing-outs include 4 adjustable shelves and 3 fixed shelves. Swing-out and door racks included but shipped separately for field installation, includes mounting screws and installation instructions. Adjustable shelves for use in back of cabinet are 4 1/2" deep, six included.
- Doors must be able to open 85° for interior swing-outs to function properly. A 3" filler is required if cabinet is located next to any full depth cabinet, refrigerator, or wall.

- Cabinet does not have a bottom. 84" and 87" high do not have a back, 90"-96" high only have a back in the upper section. Doors are braced together, are 1/4" shorter than the cabinet for floor clearance, and use standard 107° soft-close hinges.
- Not available in certain door styles. See Door Style section for exceptions.
- Can be reduced in depth to 9" or increased in depth to 27".
- Authentic Ends uses the standard tall door configuration by height and will not align with the front doors. A tall end panel skin can be used to conceal door attachment screws on the interior of the cabinet end panel (see TEPS_ _WD on page 263).
- Height of ceiling needs to be considered for installation, 96" high cabinet requires 99" of height for 24" deep and 100" of height for 27" deep to stand unit upright.
- Cabinet will be shipped with additional attached supports to be removed during installation.
- ICMB (Inside Corner Moulding) can be used to conceal staples behind the face frame.
- SCRIBEB (Small Scribe Moulding) can be used to conceal exposed back edges of the end panels, which are not edgebanded.
- End panels will not be drilled for shelves.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Cabinets with 3" wide face frames are not available in certain door styles. See Door Style section for exceptions.
- Base section will utilize a full depth shelf.
- Upper section on 90" tall has one full depth adjustable shelf.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Cabinets with 3" wide face frames are not available in certain door styles. See Door Style section for exceptions.
- Upper section on 90" tall has one full depth adjustable shelf.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Exterior height of bottom 2 drawer boxes is 6 3/8".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Cabinets with 3" wide face frames are not available in certain door styles. See Door Style section for exceptions.
- Includes adjustable shelves in upper section:
93" tall - one shelf
96" tall - two shelves
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum w/Drawer cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Cabinets with 3" wide face frames are not available in certain door styles. See Door Style section for exceptions.
- Includes adjustable shelves in upper section:
 - 84" tall - one shelf
 - 87"-90" tall - two shelves
- All top and bottom cross rails are 1 1/2" wide.
- All toekick areas are 4 1/2" high.
- Exterior height of bottom 2 drawer boxes is 6 3/8".
- Includes OCINSTALLKIT for microwave installation.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Cabinets with 3" wide face frames are not available in certain door styles. See Door Style section for exceptions.
- Upper section on 90" tall has one full depth adjustable shelf.
- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 197-202.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum w/Drawer cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 13 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard soft-close hinges.
- On cabinets with 3" wide face frame side stiles, doors use face mount hinges. Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 197-202.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 313 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum w/Drawer cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

- 93" tall includes five adjustable shelves and one fixed shelf.
- 96" tall includes six adjustable shelves and one fixed shelf.
- Separate pedestal base included but packaged separately on 93" and 96" tall. Pedestals are the same width as the cabinet box except when specified with FPEB, in which the pedestal will be 1/4" recessed when centered.
- If ordered with Heirloom Technique, will not feature sand-through characteristics.
- To change the top rail valance, specify one of the following modifications: Arch (TVRAV), Furniture (TVRFV), or Straight Valance (TVRVV).
- Bookcases can only be reduced to 9".

Standard vanity toekick is 4 1/2" tall, which will align with standard base cabinets.

Distance between back of drawer box and back interior of cabinet is 2 3/4".

Vanity cabinets are shipped with an unfinished toekick. Finished toekicks in matching wood veneer or laminate must be ordered separately and field installed.

All vanity cabinets are predrilled for full depth shelves or roll trays.

There will be no charge for RD18 on 21" deep vanity cabinets.

For Linen cabinets, Tall mitered door styles and laminate door styles will feature one center panel, other door styles will feature two center panels.

Horizontal grain doors greater than 48" high will be two doors doweled together.

- Plumbing clearance of 15 1/16" to the top edge of the lower drawer box (6 3/8" high drawer box).
- 5-piece drawer front configuration will not match on door styles with unique rail widths for drawer fronts over 10" high. Check Door Style section for drawer rail widths by height.
- Features a full cabinet top that can be routed for sink installation.
- Standard with All-plywood Construction (APC) and Furniture Finished Plywood Ends (FPFB).
- Installation to be performed by qualified professionals only.
- Unit must be securely fastened with sufficient type, quantity and size of screws to all available wall studs and internal structural wall blocking placed between wall studs. Additional bracing may be required.
- Installation instructions and required 3 1/2" installation screws included, standard 2 1/2" installation screws are not sufficient in this application.
- The use of internal structural wall blocking (2 x 6's) is required to provide secure horizontal attachment points between wall studs.
- Do not exceed loading of 25 lbs./sq. ft. for countertop and sink.
- Do not exceed loading of 15 lbs./sq. ft. for contents on shelves and/or drawers.
- Avoid use of concrete or other heavy masonry countertops.

- Features a full cabinet top that can be routed for sink installation.
- Standard with All-plywood Construction (APC) and Furniture Finished Plywood Ends (FPFB).
- Installation to be performed by qualified professionals only.
- Unit must be securely fastened with sufficient type, quantity and size of screws to all available wall studs and internal structural wall blocking placed between wall studs. Additional bracing may be required.
- Installation instructions and required 3 1/2" installation screws included, standard 2 1/2" installation screws are not sufficient in this application.
- The use of internal structural wall blocking (2 x 6's) is required to provide secure horizontal attachment points between wall studs.
- Do not exceed loading of 25 lbs./sq. ft. for countertop and sink.
- Do not exceed loading of 15 lbs./sq. ft. for contents on shelves and/or drawers.
- Avoid use of concrete or other heavy masonry countertops.

TABLE OF CONTENTS – FILLERS & PANELS

Fillers255

Box Column Fillers260

End Panel Skins263

Back Panels264

End Panels265

End Panel with Filler Attached267

V-groove End Panel271

Decorative Door Panel Kits272

Wainscoting273

Appliance Panels274

Custom Hinged Doors277

When designing with full overlay door styles, apply overlay fillers onto fillers.

All 1/4" thick panel material cannot be used in conjunction with cabinets with FPFB or AUTHL/AUTHR/AUTHB modifications

For premium panels, High Gloss availability matches Vertical Grain availability. Horizontal Grain panels cannot be ordered with High Gloss

Premium, horizontal grain, overlay fillers greater than 48" high will be comprised of two segments and require field assembly (allow 3/16" gap between overlays for alignment with adjacent doors).

SPECIES AVAILABILITY

Species Availability charts list the availability of each product code by species and any substitutions that are made. Exceptions within a section are noted below the species availability chart.

For panels with doors and/or fillers attached, species availability is shown for the panel and filler only.

For Species Availability, look for this chart throughout. For trim items ordered with Laminates, trim items matching the cabinet box color are noted in the charts.

MDF door styles will use Maple for trim and panels, refer to Maple in the Species Availability charts.

DECORATIVE DOOR PANEL KIT Base End

BED	644
BEDSD	644

- Door panel kits include Base End Panel Skin, unattached door(s) and attachment screws. Field installation required.
 - Not compatible on cabinets specified with FPEB. Use Authentic Ends modification for decorative doors with FPEB.
- *Width shown in each image is panel width. For Full Overlay doors, total door width is 1/2" greater than panel width. When installed on the side of a cabinet as intended, the Full Overlay door will extend over the cabinet face frame edge. Partial Overlay doors have a 1" reveal, so they would not overlap the frame.

- Full Overlay Styles only.
- Panel is 1 1/2" thick including doors. Non-operating doors are applied to 3/4" thick rail and stile frame.
- Flush Toekick standard.
- Wainscoting panel backs are not finished, but are sealed to prevent warping and cracking.
- All faces and edges will be finished.
- For use on bars or islands, attach panel by securing the panel face frame through the inside of the applicable cabinet.
- For wall applications, the screw heads used for the panel face frame attachment to the wall can be concealed behind the doors and drawer fronts.

CUSTOM PANELS, DOORS, & DRAWER FRONTS

All custom panels and doors can be ordered through 20/20. For manual orders, please use the Decorative Appliance Panel Request Form. See Policies section for information on where that form can be found.

Due to customized ordering, Decorative Appliance Panels may not be returned.

Custom Panels & Doors (DAPNL.. and DADOOR..) square footage requirements are calculated by multiplying the height and width for each panel and door (square footage = width x height (in inches)/144). Premium finish upcharge will be applied.

Custom Panels

DAPNL1/4 \$44 /sq ft

DAPNL3/4 \$62 /sq ft

- DAPNL1/4 includes 1/4" finished veneer on MDF core, panel cut to fit appliance doors. Panels mount to the appliance using trim kits provided by the appliance supplier.
- DAPNL1/4 is finished on face only, edges are not finished.
- DAPNL3/4 kit includes 3/4" furniture board core veneer panel finished on both sides, and all four edges. Panel is cut to fit appliance doors, and mounts to the appliance using trim kits provided by the appliance supplier.
- Custom sizes available in 1/16" increments.
- DAPNL3/4 can be ordered in APC.

	Maximum Width	Minimum Width	Maximum Height	Minimum Height
DAPNL1/4	48"	5"	96"	5"
DAPNL3/4*	48"	5"	48"	5"
DAPNL3/4**	30"	5"	96"	5"

*If DAPNL3/4 is 48" high or less
 **If DAPNL3/4 is greater than 48" high
 Grain on panels will follow the height dimension (vertical)

Custom Doors, No Hinge Routing

Overlay Application (with Backer Panel)

Overlay Application (no Backer Panel)

Framed Application

DADOORB

\$176 /sq ft

DADOORHG

\$176 /sq ft

- DADOORB is a custom sized door with a vertical grain center panel.
- DADOORHG is a custom sized door with a horizontal grain center panel. Stiles and rails are built as doors with a single center panel.
- DADOORHG will utilize a flat panel on raised panel styles when width or height is less than 10".
- Includes a 3/4" thick door made to a custom size for the appliance front. No backer panel included.
 - Some appliances require a .10" spacer and/or a 1/4" backer panel.
 - The 1/4" backer panel may be ordered separately (see DAPNLI/4).
- All doors will be specified "NO HINGE ROUTE". Backs may have identification marks, be unfinished, and have 3/16" diameter holes used during finish processing. For these reasons, these doors are not suitable for use as cabinet doors.
- DADOORB and DADOORHG are not available on certain door styles. See Door Style section for availability.
- Custom sizes available in 1/16" increments.
- CG modification available, maximum size is 23 1/2" x 43" for DADOORB and 43" x 23 1/2" for DADOORHG.
- Not available on MDF door styles. If desired for use with MDF, order as Maple.

	DADOORB	Mitered Styles	8" to 25 7/8"	8" to 61"
	DADOORHG	Non-mitered Styles	7 1/2" to 42 1/4" (<3" wide rails/stiles) 8 1/2" to 42 1/4" (3" wide rails/stiles)	7 1/2" to 23 3/4" (<3" wide rails/stiles) 8 1/2" to 23 3/4" (3" wide rails/stiles)
	DADOORHG	Mitered Styles	8" to 61"	8" to 24"

*Any door with a minimum width or height dimension less than 10" will receive a flat center panel.
 **In certain door styles, DADOORB has a maximum width of 23 1/2" for a single width center panel, doors between 23 9/16" and 35 3/4" wide have a center mullion between the center panels. See Door Style section for exceptions.

Custom Drawer Fronts

**5-piece Drawer Fronts:
DASPCDF**

\$176 /sq ft

- DASPCDF is a custom sized 5-piece drawer front with a flat panel on raised panel styles when width or height is less than 10".
- DASPCDF is available on door styles where 5-piece drawer fronts are available as standard or optional. Requires a 5-piece drawer front selection, see chart below for available options.
- DASPCDF not available in certain door styles. See Door Style section for availability.
- Includes a 3/4" thick drawer front made to a custom size for the appliance front. No backer panel included.
 - Some appliances require a .10" spacer and/or a 1/4" backer panel.
 - The 1/4" backer panel may be ordered separately (see DAPNLI/4).
- Backs may have identification marks and have 3/16" diameter holes used during finish processing.
- Custom sizes available in 1/16" increments.

**Slab Drawer Fronts:
DASLBDF**

\$176 /sq ft

- DASLBDF is a custom sized slab drawer front.
- DASLBDF is available on door styles where slab drawer fronts are available as standard or optional. Requires a slab drawer front selection, see chart below for available options.
- DASLBDF not available in certain door styles. See Door Style section for availability.
- Includes a 3/4" thick drawer front made to a custom size for the appliance front. No backer panel included.
 - Some appliances require a .10" spacer and/or a 1/4" backer panel.
 - The 1/4" backer panel may be ordered separately (see DAPNLI/4).
- Backs may have identification marks and have 3/16" diameter holes used during finish processing.
- Custom sizes available in 1/16" increments.

DESCRIPTION	MODEL	PRICE
STACK MOULDING KITS		

- Moulding stacks do not ship assembled; field assembly is required. Assembly instructions can be viewed in 20/20 spec pages and will also ship with moulding kits.
- When ordered as a kit, only one finish can be specified. To order with more than one finish, moulding pieces must be ordered separately.
- Moulding stacks include Assembly Instructions. Cleats and finish nails not included.

- How to place a stack moulding in 20/20:
 - Moulding
 - Top Mouldings or Bottom Mouldings
 - Stacked Mouldings
 - Drag and drop desired moulding stack onto wall cabinets
- Mouldings specified as 8' nominal length have a usable length range of 93" up to 99". Mouldings specified as 10' nominal length have a usable length range of 117" up to 123". Be sure to order the correct amount of moulding length to work around required cuts with minimal butt joints.

ARCHITECTURAL ACCENTS

All mouldings and embellishments marked with the ☆ follow these guidelines:

Program Details

- Products are priced individually with availability and exceptions noted. Finish technique upcharges apply.
- Items will be shipped loose for field attachment.

Product Characteristics

- Natural characteristics of wood carved items are wider color range, irregularity of surface texture, and more noticeable variations in finish. It is imperative to understand the variations these characteristics entail and therefore will not be considered defective.

Ordering Process

- To ensure product ships with the cabinet order, include on same order. Orders not placed together may not ship together.
- Express Response program is available for 12 day delivery.
- Since these items are ordered on an "as-required" basis, **no changes or cancellations will be accepted after 24 hours from acknowledgment of order.**

MOULDING SPECIFICATIONS

Mouldings specified as 8' nominal length have a usable length range of 93" up to 99". Mouldings specified as 10' nominal length have a usable length range of 117" up to 123". Be sure to order the correct amount of moulding length to work around required cuts with minimal butt joints.

DECORATIVE HARDWARE - TOUCH LATCH

TOUCH LATCH	TOUCLATCH	35
-------------	-----------	----

- Nylon gray mechanism with bumper tip.
- Face frame will need to be field drilled for insertion of the TOUCHLATCH, requires 25/64" (10mm) drill bit.
- Can be field adjusted for door gap depth, no tools required.
- For use on full overlay door styles only.
- Requires a soft touch to open the door, and door must be pushed closed to reset the TOUCHLATCH mechanism.
- Only for use on hinged doors, and can be used without decorative hardware. Not compatible with non-hinged doors such as pull-outs, Wall Vertical-lift (WVL.). For drawers, pull-outs, and other non-compatible cabinets, PULLH105 and PULLH106 are recommended (see page 309).

- Outlet has a total rated capacity of 15 amps.
- Includes two 120V electrical plug-ins and two 2.1 amp rated USB charging ports.
- Cord has 3 ft. of length hanging freely from back mounting bracket. The cord is 14 gauge wire and features a standard 3-prong plug and is required to be plugged into an approved AFCI/GFCI dual function outlet for all applications.
- Outlet is ETL approved-compliant for electrical and other safety standards to U.S. and Canadian safety including UL standards.
- Requires field installation including a 4.25" x 2.13" square hole to be cut into the back of the drawer box.
- Outlet face plate measures 5.22" x 2.3" and will extend 3/4" into drawer box.
- A minimum drawer box height of 2 5/8" is required for installation.
- For use in base cabinet widths of 18" to 36".
- For use in cabinet depths of 15", 18", 21", and 24".
- Also available as an installed modification, see DRWPWR on page 17.

DESCRIPTION MODEL PRICE

POWER POD

JPWRPODBK (Black) 656

JPWRPODSS (Stainless Steel) 937

JPWRPODGM (Gun Metal Black) 937

- Includes: independent power switch, three electrical sockets, and two USB ports (*located above power switch*).
- 18" of clearance required below surface mount location; and 3 9/16" diameter hole is required in countertop to install.
- This item requires field installation. This accessory cannot be installed above drawers.
- Safe for countertop installation: rated IP54-splash proof from splashing water and water jets per IPX waterproof specifications; and is ETL approved-compliant for electrical and other safety standards to North America safety including: UL, ANSI, CSA, ASTM, and NFPA standards.
- When installed, top lip of strip sits on top of countertop with a pivoting handle. Handle is pulled up to bring bottom of power strip to countertop.
- Cord is 8 ft. long and features a standard 3-prong plug for use in any household outlet. 10 amps.

SLIDING TOWEL RACK

STR 144

- Metal.
- 5" wide x 17 3/4" long x 1 1/2" high.
- Fits in any sink cabinet.

EZ-ORG™ MODULAR PULL-OUT RACKS

EZORG18 526

EZORG24 700

- EZORG18 includes four pull-out racks installed onto a wood base for use in an 18" wide or wider cabinet. Outside rack dimensions:
 - one 5 7/8" wide x 5 3/4" high
 - one 3 1/4" wide x 10 3/4" high
 - two 2 3/8" wide x 10 3/8" high
- EZORG24 includes six pull-out racks installed onto a wood base for use in a 24" wide or wider cabinet. Outside rack dimensions:
 - one 5" wide x 5 3/8" high
 - two 3 1/4" wide x 10 3/4" high
 - three 2 3/8" wide x 10 3/8" high
- Entire pull-out must be installed as one unit, cannot remove racks from wood base for individual installation.
- Racks feature natural finish wood shelves with wire racks and frosted front and back panels. Guides are full extension and do not feature soft-close.
- Maximum Weight Capacity:
 - 2 3/8" and 3 1/4" wide racks: 7 lbs.
 - 5" and 5 7/8" wide racks: 20 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.
- Field installation requires attaching wood base to cabinet bottom with pre-drilled mounting holes, includes 4 screws and instructions.
- Installation height clearance of 12" minimum is recommended.

SPICE RACKS

SRCH12 127

DESCRIPTION MODEL PRICE

SPICE RACK PULL-DOWN

SPD18 239

- Spice Rack Pull-down dimensions: 8 15/16" high x 14 13/16" wide x 10 5/16" deep.
- Extends 3 3/4" below and 9 1/4" in front of the cabinet box when fully extended.
- Maximum Weight Capacity: 15 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.

SHELF PULL-DOWN

SHLFPD36 1448

- Shelf Pull-down dimensions: 18 11/64" high x 28 1/4" wide x 8 1/2" deep.
- Clearance dimensions: 19 3/8" high x 15 3/8" wide.
- Maximum Weight Capacity: 26 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.

TOEKICK VACUUM

TOEKICKVAC 632

- 120V compact vacuum cleaner for field installation into the toekick area of base cabinets. Toekick area must be routed for vacuum to be inserted and screwed into place.
- Flooring installation must be compatible with the vacuum by ensuring the bottom of the cabinet is flush with the top of the flooring to allow clearance for the tray to open to access the bag and filter. The flooring should either be installed under the cabinets or the cabinets can be raised to the flooring level.
- Vacuum is 120V-60Hz, rated current of 5 amps, and rated input power is 650W.
- Cord is 10 ft. from the right side of the unit and features a standard 3-prong plug for use in any household outlet.
- Built-in switch can be gently tapped to turn the unit on and off.
- Should not be installed in a sink base, bathroom, outdoors, or in other wet environments. Do not expose to moisture, rain, or snow. Do not pick up water or sweep water into the vacuum.
- For installation in the front toekick, cabinet must have a minimum depth of 22" and a minimum width of 18". For installation in an end panel, cabinet must have a minimum depth of 21" and a minimum width of 21".
- TOEKICKVAC includes three reusable 0.5 gallon vacuum bags and one HEPA filter.
- Plastic faceplate features a stainless steel look.
- An air exhaust opening equal to 8" sq (50 cm sq) is required in an area adjacent to the TOEKICKVAC at the rear or side of the cabinet, where cabinets are tight to the floor.

TILT-OUT TRAYS, PLASTIC

TOT15 122

TOT18 128

- Kit includes two white plastic trays and one pair of tilt-out hinges that attaches to the inside of the false panel.
- Tilt-out Trays are stain resistant, moisture resistant plastic to allow storage of sponges and other cleaning materials.
- One tilt-out tray per false panel on cabinets less than 30" wide and greater than 36" wide, two tilt-out trays attached to one false panel on 30"-36" wide cabinets.
- Clean using a mild soap and water. Avoid scalding water.

HINGE ANGLE RESTRICTION CLIP		
	HINGERESCLIP	13
	<ul style="list-style-type: none"> • For use in applications with cabinets installed at varying depths to prevent the door damage caused by opening into an adjacent cabinet. • Restricts hinges to 86° opening capability. • Works only with the 38NPOHINGE and 38CFOHINGE. • Not recommended for cabinets with roll trays specified in partial overlay styles. • Sold in pairs. 	

DESCRIPTION	MODEL	PRICE
HINGE SHIM	HINGESHIMS	18
		
	<ul style="list-style-type: none"> • Install between the face frame and hinge to allow additional adjustment of doors. Can be used to reduce gap between butt doors. • Each shim is 1/32" thick and can be stacked to achieve desired overlay reduction. • Pack of 5 metal shims. • Compatible with all hinges except face-mount. 	
LIDSTAY	LIDSTAY	233
		
	<ul style="list-style-type: none"> • Sold in pairs. • Recommended for field installed wall top hinge applications 12" to 18" high. 	
LIDSTAY - HEAVY DUTY	LIDSTAYHD	214
		
	<ul style="list-style-type: none"> • One heavy duty lid stay hinge required per cabinet. • Recommended for field installed wall top hinge applications of 21" high cabinets. 	
WALL TOP HINGE ANGLE RESTRICTION CLIPS	WTHRESCLIP75	13
		
	<ul style="list-style-type: none"> • For use on 9" high Wall Top Hinge cabinets only. • Restricts opening angle of the door to 75°. • Prevents the door from hitting the ceiling or an object above, also keeps the handle within reach on very high cabinets. • Sold in pairs (two clips required per cabinet).

PDM

SHELFPEGS

- BRKOFFSCREW is a pack of 25 breakaway screws for use with decorative hardware pulls and knobs.
- INSTALLSCR4 and INSTALLSCREWS are screws for cabinet installation through the cabinet back to the wall studs (includes a pack of 4 or 100).
- PDM creates a smooth and silent self-closing motion and includes all installation hardware.
- RETCLIP250BAG: 6 retainer clips for use with glass inserts in mullion and cut-for-glass doors.
- SHELFPEGS are 3mm steel pins with clear plastic shoulders.

DECORATIVE APPLIANCE PANELS

If a decorative appliance panel is required, use the Decorative Appliance Panel Request Form located on MasterBrand Connect.

WOOD DUST WARNING

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, we recommend that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

CERTIFICATIONS

ANSI A161.1

Our products meet or exceed the ANSI A161.1 performance and construction standards for kitchen and vanity cabinets as certified by ICC-ES (International Code Council Evaluation Service). Learn more at [masterbrandcabinets.com/certifications](https://www.masterbrandcabinets.com/certifications).

TSCA Title VI

TSCA Title VI is a U.S. regulation that sets formaldehyde emissions standards for composite wood products, such as hardwood plywood, medium-density fiberboard, and particleboard, as well as products containing them, such as furniture. It requires composite wood products to be tested and certified by EPA-recognized third-party certifiers using specific methods. This federal regulation applies to all states and territories in the U.S. and is identical to the California Air Resources Board (CARB) rule. Learn more at [masterbrandcabinets.com/certifications](https://www.masterbrandcabinets.com/certifications).

CARB Compliance - Formaldehyde Emissions

Mid Continent Signature Cabinetry is committed to offering solutions that meet or exceed air emissions rules and regulations. All composite wood products used in the construction of our cabinets, which includes end panels, bottoms, backs, shelves, toekicks and corner blocks, are compliant with emissions limits under EPA TSCA Title VI, CARB Phase 2 and HUD.

Dear Mid Continent® Signature™ Customer,

Congratulations on your selection of Mid Continent Signature cabinetry with an Heirloom finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Mid Continent Signature, and we want you to fully understand the characteristics that make an Heirloom Finish unique.

The finish will be sanded through the base coat to expose the surface of the wood. This type of sand through on the edges and profiles creates a naturally worn appearance. If a finish is chosen with a glaze, the glaze will be applied after sanding has been done. This will enhance those areas of exposed wood to take on the darker characteristics of the applied glaze.

Normal Characteristics of Painted, Sand-Through Finishes include:

- Hairline Cracking
- Visible textures of natural grain patterns
- Variation in rub through and wear techniques

Accordingly, we ask that the following agreement be signed for Heirloom Finish orders.

I have read the foregoing and find the characteristic variations of wood with Heirloom finish are desirable. As such, I agree not to hold Mid Continent Signature and/or the Mid Continent Signature dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Dealer Purchase Order Number

Dear Mid Continent® Signature™ Customer,

Congratulations on your selection of Mid Continent Signature cabinetry in a Paint or Paint with Glaze finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Mid Continent Signature, and we want you to fully understand the characteristics that make painted finishes so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Mid Continent Signature utilizes only select solid hardwoods and veneers. The beauty of these genuine woods lies in the variation of the grain. The textures of those natural grain patterns often remain visible with paint finish and should be accepted as inherent characteristics when selecting painted cabinetry. When ordering painted Maple 5-piece styles (except Windsor), the door's center panel will be constructed of MDF material.

On both Maple and MDF, seam lines and hairline cracking at stile, rail and panel joints are normal characteristics of painted finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift in the paint finish due to the continued exposure to natural and artificial light sources. We mention these characteristics because neither Mid Continent Signature nor your Mid Continent Signature dealer can be responsible for these conditions and variations.

Example of front joint separation

Example of front joint separation

Example of end joint separation

Accordingly, we ask that the following agreement be signed for Paint Finish orders.

I have read the foregoing and find the characteristic variations of wood and MDF with painted finish are desirable. As such, I agree not to hold Mid Continent Signature and/or the Mid Continent Signature dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Dealer Purchase Order Number

Dear Mid Continent® Signature™ Customer,

Congratulations on your selection of Mid Continent Signature cabinetry in Rustic Alder. Because of its unique characteristics Rustic Alder is quite different from other wood types you may be familiar with. Your satisfaction is important to Mid Continent Signature, and we want you to fully understand the characteristics that make Rustic Alder so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Rustic Alder is characterized by its light brown and reddish undertones and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes through the panel. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks. However, those characteristics that might compromise the structural integrity of the door will not be included.

Sound Closed Knot (not moveable) – Expected in Rustic Alder up to approximately 3” diameter.

Sound Knot with Cracks – Expect sound knots with open cracks up to approximately 1” in length.

Open Knot (through door) – Expected in Rustic Alder with open area up to approximately 3/4” diameter.

Note: 3/4” diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

Unsound Knot (moveable core) – Not to be expected.

Knot Cluster (cluster of tight sound knots) – To be expected in Rustic Alder.

Worm Holes/Pin Holes (can go through door) – Can be expected on Rustic Alder up to approximately 1/4” diameter.

Worm Tracks – Can be expected on Rustic Alder in sizes up to approximately 1/8” wide by 8” long.

Doors, drawer fronts, and selected trim items will feature rustic characteristics. Other areas of the product will utilize standard Alder. Customers should expect a much lower occurrence of rustic characteristics in these other areas. Also, the natural characteristics mentioned occur randomly in Rustic Alder. All doors and drawer fronts will contain some combination of the common Rustic Alder markings; however, it will be uncommon to find all markings on any single piece.

The natural characteristics of wood described above and variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Mid Continent Signature nor your Mid Continent Signature dealer can be responsible for these conditions and variations.

Accordingly, we ask that the following agreement be signed for Rustic Alder orders.

I have read the foregoing and find the characteristic variations of wood with Rustic Alder are desirable.

As such, I agree not to hold Mid Continent Signature and/or the Mid Continent Signature dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Dear Mid Continent® Signature™ Customer,

Congratulations on your selection of Mid Continent Signature cabinetry in Rustic Hickory. Because of its unique characteristics Rustic Hickory is quite different from other wood types you may be familiar with. Your satisfaction is important to Mid Continent Signature, and we want you to fully understand the characteristics that make Rustic Hickory so distinctive.

Rustic Hickory is a strong, heavy hardwood known for distinctive graining patterns. Color will vary from nearly white to dark brown, with wild, flowing grain patterns and dramatic color variations. Rustic Hickory can have a fine uniform grain to large knots appearing black and brown in color of various shapes and sizes, sapwood, mineral and some checking.

Sound Closed Knot (not moveable) – Expected up to approximately 3” diameter.

Sound Knot with Cracks – Expect sound knots with open cracks up to approximately 1” length.

Open Knot (through door) – Expected with open area up to approximately 3/4” diameter.

Unsound Knot (moveable core) – Not to be expected.

Worm Holes/Pin Holes (can go through the door) – Can be expected up to 1/4” diameter.

Worm Tracks – Can be expected in sizes up to approximately 1/8” wide by 8” long.

Note: 3/4” diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

Doors, drawer fronts, and selected trim items will feature rustic characteristics. Other areas of the product will utilize standard Hickory.

The natural characteristics of wood described above and variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Mid Continent Signature nor your Mid Continent Signature dealer can be responsible for these conditions and variations.

Accordingly, we ask that the following agreement be signed for Rustic Hickory orders.

I have read the foregoing and find the characteristic variations of wood with Rustic Hickory are desirable.

As such, I agree not to hold Mid Continent Signature and/or the Mid Continent Signature dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

EXPRESS RESPONSE PROGRAM - GUIDELINES

Our Commitment to Designers and Customers

Purpose

The Express Response™ program is used to expedite orders when customers need product faster than normal lead-time to correct issues with an existing order. Below is an overview of the Express Response program and what you can expect from our commitment to superior service.

Express Response Guidelines

- Eligible orders must be associated with a previous order number.
- Lead time calculation is based on receipt of a clean order. Clean orders are orders in which all information is provided and accurate.
- There is no additional upcharge for Express Response.
- There are no cancellations or returns once an Express Response order is received.
- Due to the nature of Special Product Requests and appliance panels, they are excluded from Express Response and will be processed as a standard lead-time order.
- Express Response is available within the continental United States. Should Alaska, Hawaii or international shipments be required, customer service representatives are ready to assist by providing shipping information and determining lead times.

Questions?

Contact Customer Service for estimated lead times.

Designer Photo Submission Call for Entries!

Don't miss out on the opportunity to have your design work featured on MasterBrand's website, social media, literature and beyond. We want to promote you by spotlighting your design talent.

Submission is simple via the Mid Continent Brand Portal on MasterBrand Connect.

TIPS AND REQUIREMENTS:

- A brief tutorial is available on Connect to navigate you through the simple submission tool.
- The submission form is within the Brand Portal section on Connect.
- A 'consent for use' form is required for each submission and is also available on Connect.
- Image quality, size, and theme will be taken into consideration for specific usability.
- Submission of media does not guarantee public use, but all submissions are reviewed for consideration and may be used internally.

HOW TO TAKE A BEAUTIFUL PHOTO

Taking a post worthy in-home photo with your mobile device can be simple! For helpful tips and tricks on lighting, exposure, and getting the right angle, visit MasterBrand Connect to view our valuable reference guide.

Share your Mid Continent designs
with us by scanning the QR code.

SIGNATURE™ SERIES

PIVOT™ SERIES

Share your design with us by tagging us on social with #MidContinentCabinetry.

Styles, product availability and construction may vary slightly from those shown in this book due to material availability and/or design evolution. Specifications are subject to change without notice. Customer service is available if your design requires verification of product availability and specifications.

Product photography and illustrations have been reproduced as accurately as printing technologies permit. To ensure highest satisfaction, we strongly recommend you view an actual sample for best color, wood grain and finish representation.
