GENERAL INFORMATION G1-G3

Delivery/Defective Material G2

Warranty G3

MARKETPLACE

DELIVERY

All cabinets are cartoned for delivery. Shipments will be made on SCB trucks whenever possible, providing the delivery point is within our operating range. Common carrier or other methods may be used in unusual circumstances. It is the Dealer's responsibility to provide personnel to assist the driver in unloading cabinets from the truck. If a delivery is less than six cabinets, there will be a \$180 list drop charge. If a job site delivery is requested, our job site form must be filled out and sent in with order and map or instructions. A job site delivery charge is \$950 list.

TERMS

Terms are Net 30 days from date of invoice, subject to credit approval. An additional 2% discount is allowed for payment in 10 days. Invoices not paid in 30 days will be subject to a 1-1/2% per month finance charge, and may result in subsequent orders being held for production and/or shipment. All orders are shipped FOB Waterloo, Iowa.

RETURNS

All Marketplace merchandise is non-returnable.

DEFECTIVE MATERIAL**DOORS:**

Doors that are warped 1/4" or less must be allowed to hang through one heating cycle before a no charge replacement will be considered. Some doors may warp slightly after installation in new homes due to high humidity levels and in older homes because of low humidity. The door will usually return to its normal flat position after going through the heating cycle. Please be certain the door is warped rather than the cabinet being racked out of square.

CABINETS OR PARTS:

Cabinets or parts that are defective will be replaced on a rush basis. Replacement orders exceeding \$811 list price require field inspection and signed authorization by our Marketplace Sales Representative, and original cabinets or parts must be returned to Marketplace for credit.

FINISH:

Complaints concerning finish must be inspected by a field representative. Marketplace reserves the option of approving a field repair or returning the cabinet or part to the factory for repair or replacement. No action may be taken without factory authorization. Exposure to smoke or extreme sunlight will alter the original appearance. Slight variations in grain and color are not considered defects, as this is the natural character and warmth of wood.

DAMAGED ITEMS

All replacement orders for items damaged during shipping need to be reordered within 60 days from the date the order was received. Replacement orders will be shipped directly to the dealership. Job site delivery for replacement parts will be charged the standard job site fee unless the original job was a job site delivery.

ORDER CHANGES/CANCELLATIONS

Marketplace orders will not be allowed to make any type of changes or cancellations once the order has been received.

LIMITED LIFETIME WARRANTY

MasterBrand Cabinets, LLC., warrants its products to be free from defects in material or workmanship for as long as they are owned by the original purchaser. MasterBrand Cabinets, LLC., at their choice, may elect to repair or replace any Bertch product covered by this warranty.

This warranty does not apply where items have been improperly stored or improperly installed. This warranty does not cover the following: costs of removing warranted material or the installation of replacement material, natural variations and aging inherent in wood, normal wear and tear or damage/defects caused by mis-use, abuse, negligence or modification in any way. This warranty does not apply to products purchased without finish.

MasterBrand Cabinets, LLC., reserves the right to inspect claimed defective products. No returns, replacements or repairs may be made without prior written consent. Some replacement parts may vary from those originally supplied and are subject to availability.

This warranty is the sole warranty of MasterBrand Cabinets, LLC., and in lieu of all other warranties, express implied, including any implied warranty of merchantability and fitness for a particular use. Labor charges for removal of or installation of warranted material as well as incidental or consequential damages are excluded. We do not assume for us any other liability in connection with the sale of our product.

Special Wall Cabinet Considerations:

Any wall cabinet over 24" wide or 30" tall must be securely installed using one of the following options: Securing the cabinet between two cabinets; between a cabinet and a wall; supported from below; or attached through the frame into a soffit frame structure. Failure to properly secure wall cabinets will void the warranty.

Special Door Considerations:

The purchaser agrees to let doors that are warped 1/4" or less to hang for one season (Spring) before replacement is requested. Typically a door will return to its normal flat position once it is acclimated to temperature and humidity conditions. Prior to requesting a replacement for a warped door, please be sure the door has been installed properly.

Special 3D Laminate Product Considerations:

This warranty does not apply to any 3D Laminate products installed without the use of properly installed heat shields, adjacent to appliances or fixtures, such as lighting that generates high temperatures.

To file a claim on this warranty contact your local authorized Bertch dealer.

Some states do not allow the exclusion or limitation of implied warranties or of incidental and consequential damages, so this limitation or exclusion may not apply. In such case, the duration of any implied warranty shall be the same as that of the expressed warranty as stated herein.

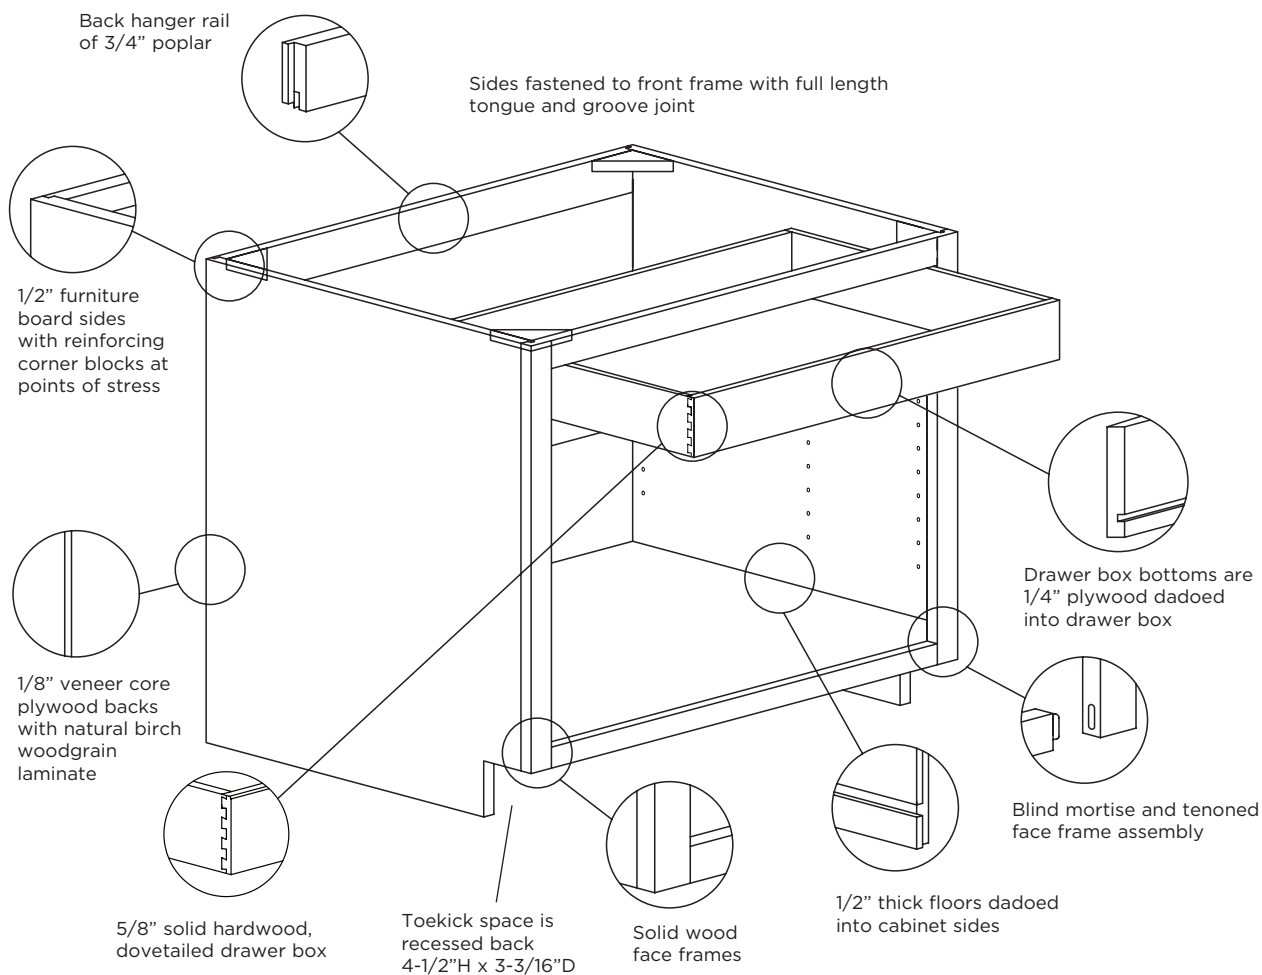

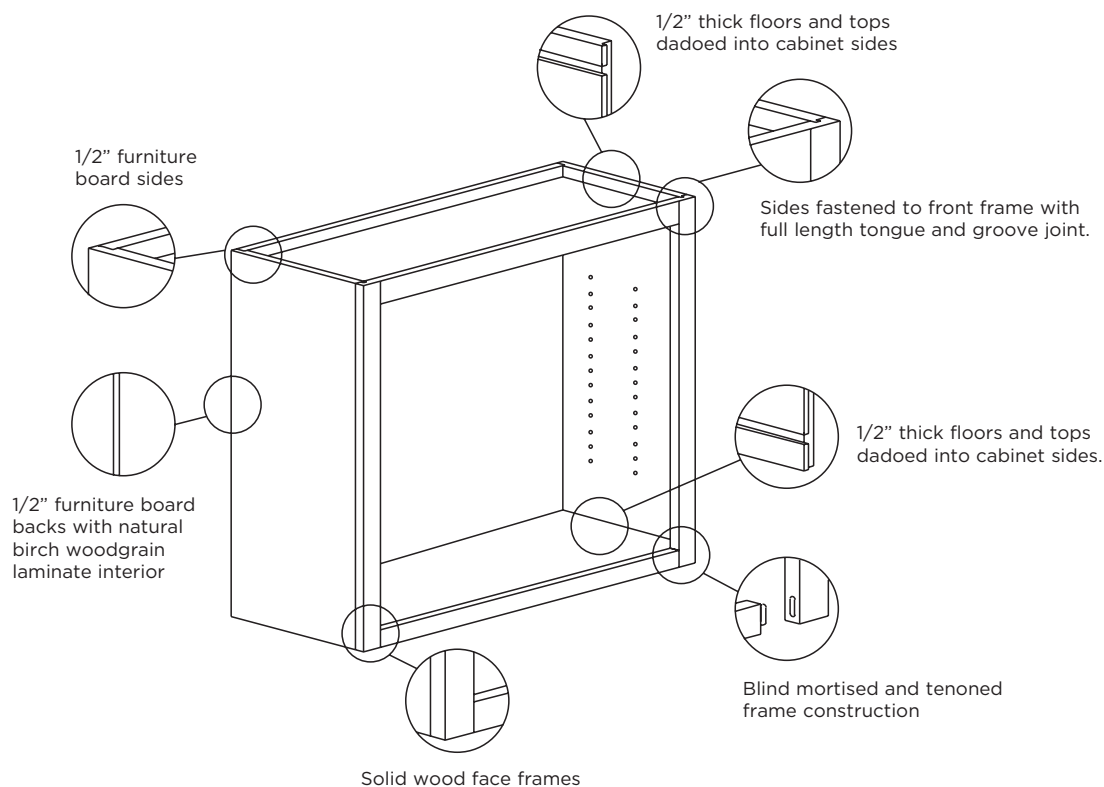

TABLE OF CONTENTS

SPECIFICATIONS..... S1-S5

Casework/Cabinet Construction DetailsS2-S3

Designing with Full Overlay S4

Designing with OverlayS5

Drawer Box: Sides, front and back are 5/8" thick solid wood dovetailed at all four corners. Drawer bottoms are 1/4" thick plywood. Drawer glides are full extension, undermount glides with soft-close and self-close features, with an easy release mechanism. Load rating for 75lb, lifetime guarantee.

Roll Tray: Sides, front and back are 3" high x 5/8" thick solid wood dovetailed at all four corners. Drawer bottoms are 1/4" thick plywood. Roll Tray glides are full extension, undermount glides with soft-close and self-close features, with an easy release mechanism. They are lifetime guaranteed and have a load rating of 75 pounds.

Face Frames are 1-1/2" X 3/4" solid wood.

Sides are 1/2" thick, Furniture Board with a natural Birch woodgrain laminate interior and exterior. Sides are fastened to the front frame with glue using dado construction. Finished End or Flush Finished End must be ordered for any exposed finished sides.

Finished End Cabinet side switches to 1/2" plywood with Birch woodgrain laminate interior and matching veneer and finish on the exterior.

Flush Finished End Cabinet side switches to 3/4" plywood with Birch woodgrain laminate interior and veneer exterior. Face frame is flush with finished cabinet side (with seam at the joint).

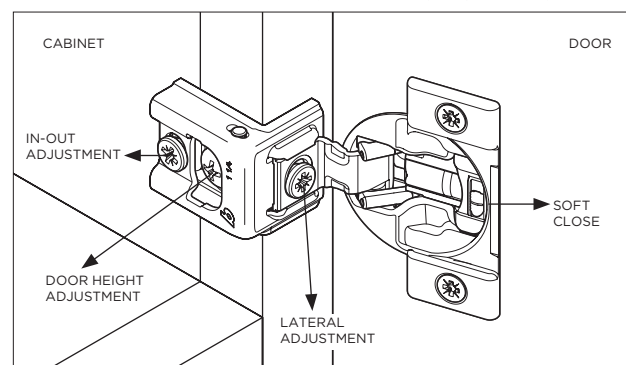

Tops and Bottoms of all wall cabinets and the bottoms of base cabinets are 1/2" thick furniture board with natural birch woodgrain laminate interior and exterior. Tops and bottoms are glued and set into the sides and frame.

Backs are 1/8" thick plywood on bases and talls. 1/2" thick furniture board on wall cabinets.

Shelves are 3/4" thick furniture board with natural birch woodgrain laminate both sides and edgebanded on front edge. Shelves are adjustable in 32mm increments.

Toekick 4-1/2" high x 3-3/16" deep. 1/2" thick (8' lengths) Plywood toe board is included in wood species ordered.

HINGE: Soft close concealed hinge has 6 way adjustability.

FINISH:

Stain Finishes: Cabinets are hand-sanded before a penetrating grain stain is applied and hand-wiped. A catalyzed sealer, which is a blend of alkyd, amino and vinyl resins, is sprayed over the surface and oven-cured. The sealer penetrates the wood providing a "link" between the stain and the topcoat. The sealer is then sanded and prepared for the topcoat application. The final coating is a catalyzed, conversion varnish which is a carefully formulated combination of alkyd and amino resins. After spray application the topcoat is oven-cured to create an exceptionally smooth, clear and durable finish with superior moisture and chemical resistance.

Sheen: Semi Gloss or Matte sheen available on stain finishes only.

Paint Finishes: Full coverage, opaque enamel, painted finishes are available on "Paintable" species for a smooth, stable surface. Cabinetry parts and doors are sanded and filled and then two coats of enamel paint is applied and oven cured. Sanding and filling between coats to ensure excellent coverage and a smooth, durable surface. Paint finishes have natural characteristics that should be reviewed with your customer. Wood naturally expands and contracts with seasonal changes in humidity. This normal movement can be more apparent with paint finishes, with joints possibly showing a seam or hairline crack. This is a natural characteristic of paint finishes and should not be considered reason for replacement.

HEAT SHIELD:

One set of Heat Shields are sent with every foil kitchen. They are used to protect the foil parts from heat given off by a self cleaning oven during the cleaning cycle.

SPECIAL WALL CABINET CONSIDERATIONS:

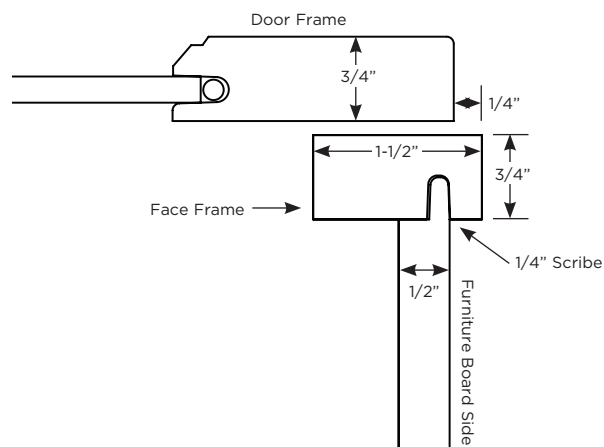

Any wall cabinet over 24" wide or 30" tall must be securely installed using one of the following options: Securing the cabinet between two cabinets; between a cabinet and a wall; supported from below; or attached through the frame into a soffit frame structure. Failure to properly secure wall cabinets will void the warranty.

Stand alone wall brackets are available upon request at no charge.

FRAME REVEALS

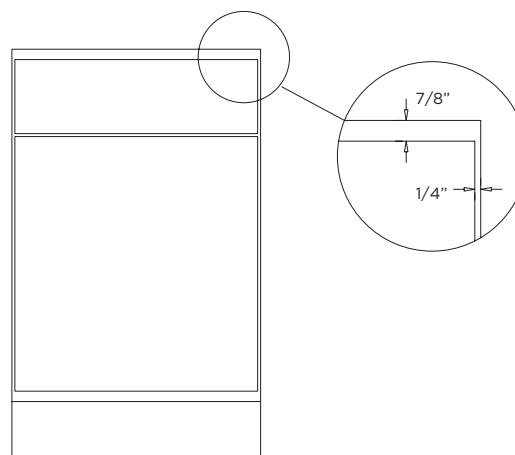

Wall Unit

Wall cabinets have a 1 1/4" reveal on top and 1/4" reveal on both sides and bottom.

Base Unit

Base cabinets have a 7/8" reveal on top and bottom, 1/4" reveal on both sides.

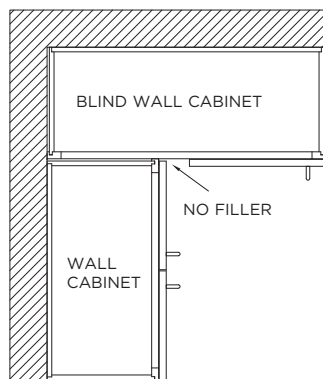

CORNER APPLICATIONS

Blind cabinets have appropriate reveals and do not need to be pulled from the corner. Cabinet can be pulled from the corner if additional clearance is needed. A filler is recommended for the adjacent cabinet for proper function.

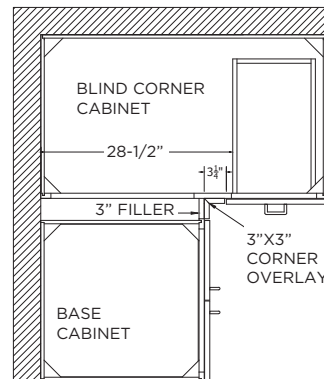

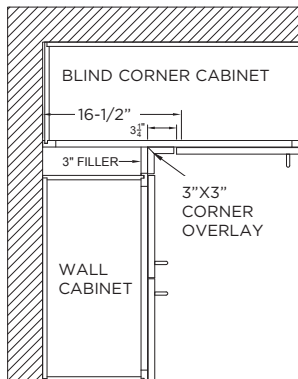

Incorrect

A filler is needed for the adjacent cabinet. Doors and hardware are occupying the same space. Watch your clearances.

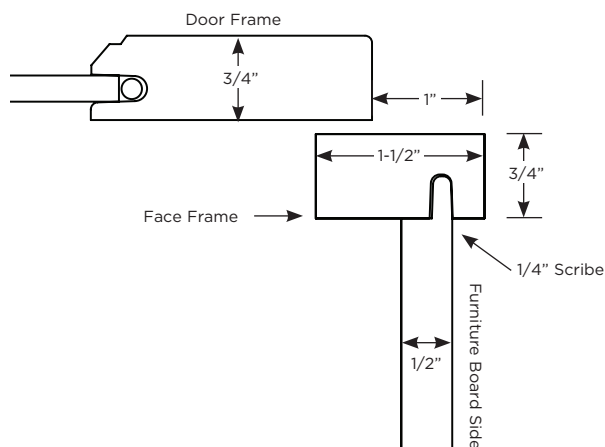

Correct

A filler allows proper operating clearance for doors and drawers. Corner overlay fillers are available to dress out the space left on the face.

FOIL (Joss, Ridley, and Sullivan Door Styles Only)

Black Matte Haze Matte White Matte

ALDER (ADD 7%)
RUSTIC ALDER (ADD 7%)

A fine-grained hardwood similar to Cherry, Birch, and Maple. Pale yellow (tan) to reddish brown in color. A soft, light wood with even texture and straight grain that accepts stain well. Characteristics include random sized tight knots and rays.

BIRCH

White Birch, medium hardwood, similar to Maple but not as consistent in color as Maple accepts stain unevenly; mottles. Mottling is a blotchy appearance evident due to various densities in the wood. Not recommended for darker stains. Off white color, medium density, fine texture, straight grain.

CHERRY (ADD 20%)

Darkens with age at a very fast rate, pitch marks (worm holes), mineral streaks, medium hardwood, accepts stain well. Cherry is especially sensitive to light. Light will cause the wood to darken/redden significantly. Medium reddish brown color, medium density, fine texture, straight grain. Sap wood of up to 20% is standard on any cherry component.

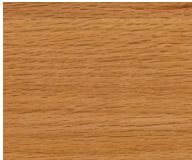

HICKORY
RUSTIC HICKORY (ADD 10%)

A strong solid heavy wood with open grain that is known for its light to dark contrast in color. Cabinet components may range from a light, almost white, sapwood to a deep, reddish-brown color. The blend of light and dark wood is highlighted when finished in a natural or light stain; darker stains will mildly tone the color variations.

MAPLE (ADD 9%)

Hardwood, fine, tight grain, looks best with light, natural finishes, yellows slightly with age. Cream color, hard density, fine texture, straight grain.

OAK (RED)

Hardwood, open grain, accepts stain well, will darken slightly with age. May vary in color from light to dark with possible shades of green.

PAINTABLE

“Paintable” is a combination of paint-grade Maple hardwoods and/or premium-grade HDF designed to ensure a smooth, stable surface and an excellent finished surface. Face Frames will be crafted of solid paint-grade Maple. Panel components (i.e. Finished Ends, Finished Interior, etc.) have a smooth resin overlay crafted for painted finishes. Painted finishes have natural characteristics that should be reviewed by your customer. *Wood will expand and contract with seasonal changes in humidity. This normal wood movement is more apparent with painted finishes and is most noticeable at joints which will look like a seam or hairline crack. This is a normal and expected characteristic of painted finishes and should not be considered a reason for product replacement.*

WOOD HOODS

WOOD HOOD BOX STYLE (WHBX)

- Hoods are available in standard wood species only.
- Box hoods are available in 2 depths. 23-3/8"D hood use "Professional Series" blower.
- For paneled hoods, Insert Panels will match the door style.
- Vent-A-Hood liner and blower is included and shipped loose. See liner/blower chart on page 400-7 for detailed specs.
- Modifications are limited. Call for availability and quote.
- Dealer is responsible for compliance with local building codes (ventilation, installation, clearances and liner width). As a guideline, hoods are recommended for installation 30" above cooking surface, and liner width should be same width or wider than cooking surface.

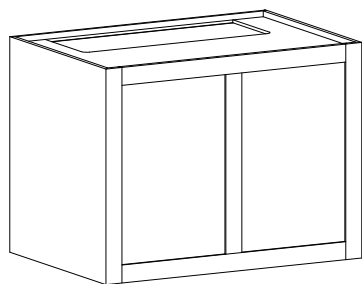

Design Note: Dimensional changes not available.

* 300 CFM blower is available for units D, E, G, H, I, J, K for No Charge/No Credit. Specify 300CFM after the code.

- Liner and Blower can be omitted and credit applied. Specify "omit liner/blower".
- Hoods are designed and sized for use with a specific Vent-A-Hood Liner/Blower. The Liner is stainless steel with LED lights. The liner/blower is included in the price of the hood and shipped loose for jobsite installation.
- Dealers are responsible for verifying compliance with local building codes (ventilation requirements, installation and clearances). Refer to appliance specifications for required mounting height. A liner should never be narrower than the appliance it covers. Depth of liner should fully cover all burners.
- Vent-A-Hood Liners are shipped complete with an inner canopy, LED lights, blowers, and switches and are pre-wired, pre-assembled and ready to install.
- The standard ventilation of the BHSLD model is intended for use over standard cooking equipment. (See Liners A-F in chart.) The extra size and blower capacity of the BHPSLD model can be used above professional-style cooking equipment (See Liners H-L in chart.)
- 300 CFM units are a single blower system (B100). 300/600 CFM units are a dual blower system (B200). 300/600/900 CFM units include a single blower (B100) and a dual speed blower (B200). (Dual blower is on the left.) 300/600/900/1200 CFM units include two, dual blowers (2-B200).
- For more information, refer to the Vent-A-Hood website.
www.ventahood.com
- Consult with a qualified HVAC professional to determine if air-makeup is required with the blower unit specified

MODIFICATIONS

DECREASE DIMENSIONS

- Most cabinets can be decreased in height, width or depth.
- Specify the next larger cabinet size and specify the dimension(s) to be decreased.
- See door style section for individual door/drawer front sizing.

Example: B36
DW Width: 35"

Minimum cabinet width: 9"

Minimum cabinet depth (with drawer): 12"

Minimum cabinet depth (without drawer): 4-1/2"

Cabinets with decreased depth are supplied with standard depth drawers & guides only.
(21", 18", 15", 12", 9" deep drawer box.)

Minimum height of wall cabinet: 12"

Minimum height of base cabinet without a drawer: 16-1/2"

Minimum height of 1-drawer base: 10-5/8"

Minimum height of 2-drawer base: 15-1/8"

Minimum height of 3-drawer base: 19-3/4"

Minimum height of 4-drawer base: 24-1/4"

ITEM	PRICE
Decrease Width (DW)	186
Decrease Depth (DD)	
Decrease Height (DH)	

INCREASE DIMENSIONS

- Most cabinets can be increased in height, width or depth.
- Specify the largest cabinet size and specify the dimension(s) to be increased.

Example: W2748
IH Height: 50"

Maximum width of tall cabinet: 36"

Maximum width of base or wall cabinet: 48"

Maximum width of vanity console cabinet: 72"

Maximum depth of wall or tall cabinet: 30" (walls over 15" deep should be anchored through one or both sides)

Maximum depth of base cabinet: 36" (Drawers remain standard 24" depth unless quoted.)

Maximum height of tall cabinet: 96"

Maximum height of base cabinet: 48"

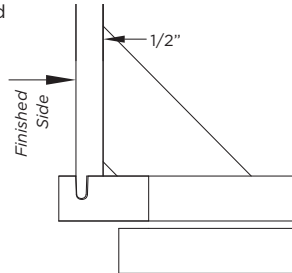

Maximum height of wall cabinet: 72"

ITEM	PRICE
Increase Width (IW)	250
Increase Depth (ID)	
Increase Height (IH)	

DESIGN NOTE: No dimensional modifications on wood hoods.
No width or depth dimensional modifications on all corner cabinets.

FINISHED SIDE

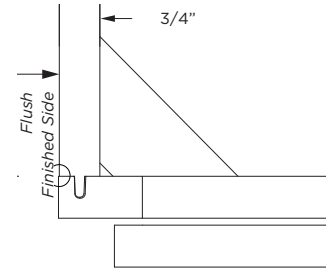

- Exposed cabinet side in a matching veneer and finish on the exterior.
- Cabinet side switches to 1/2" plywood
- Specify Side (L or R)

		PRICE

JOB SITE DELIVERY FORM

PLEASE FAX COMPLETED FORM TO 1-800-973-1200.
IF JOB SITE DELIVERY FORM IS NOT COMPLETE, THE DELIVERY WILL GO TO THE DEALER'S LOCATION.

☐ BATH ☐ MARKETPLACE ☐ KITCHEN+

Dealer Name		Dealer Contact	
Business Hours		Business Phone	Business Cell Phone
Job Name		Job Site Contact	
Job Site Phone#	Job Site Cell Phone	Job Site Address (Street, City, State)	

Please include your job site delivery form with your order. The form must be complete including written directions and signature. If the form is not complete the delivery will go to the Dealer's location. The Dealer will be notified by an acknowledgment as to which week to expect delivery. Bertch drivers will call the Dealer direct a minimum of 24 hours prior to delivery. Type or print specific directions below from the nearest major highway. If you need more room continue on the back of this form. **WRITTEN DIRECTIONS MUST ACCOMPANY ORDER.**

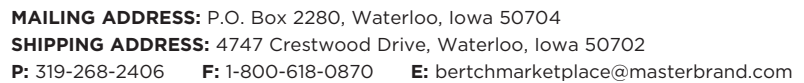

JOBSITE DELIVERY FEE \$950**DEALER RESPONSIBILITY CHECK LIST - ITEMS MUST BE CHECKED-OFF**

- ☐ Physically check the job site for accessibility of a 68' Semi Tractor-Trailer. Our trailers require a height clearance of 13'6". (This includes power lines, low tree branches, low overpasses, bridge or road weight or width limits). There must be ample space to turn around (NO CUL-DE-SACS, hairpin curves or extreme grades). We will not travel on dirt/gravel roads. Check for any other obstructions that will cause an accessibility problem.
- ☐ Two able-bodied people must be at the job site location to help unload the products from the trailer to the residence. Our drivers will be responsible for tailgating the products and assisting the Dealer Staff when necessary to unload large/heavy items.
- ☐ Upon Bertch/S.C.B. drivers 24 hour notification of delivery the dealer must make the necessary arrangements with the customer for a timely delivery. If contact cannot be made we reserve the right to return the products to Bertch and reschedule them on our next available truck. Dealer will accept additional charges if driver is not met as agreed and needs to reschedule.
- ☐ Any materials damaged during delivery on our trucks, requiring factory repair or replacement must be noted immediately and returned on the same truck.
- ☐ Upon driver inspection of the actual job site the driver may refuse to make the delivery at the job site if he feels it is unsafe or unmanageable with the consent of Bertch Cabinet, LLC./S.C.B. Fines or charges incurred as a result of a job site delivery will be paid by the Dealer (this includes any towing charges, repairs to low power lines, overweight/over-width restriction fines, damages to property or equipment).

If the above criteria is not met when driver arrives, future job site deliveries to Dealer location will be denied.
The undersigned understands his/her responsibility and acknowledges the conditions of this application.

DEALER PRODUCT AWARENESS AGREEMENT

As an authorized dealer of Bertch products the undersigned (representing the dealership) acknowledges the responsibility of explaining, and educating each of our (Bertch) customers in the specific characteristics inherent to the various wood species, wood traits (to include rustic and knotty as well as distressing) and unique finishes available through Bertch Cabinet, LLC. The undersigned understands that as new finishes, traits and wood species become available it is their responsibility to present these new characteristics for these items, as well as any current items available from Bertch.

The undersigned agrees not to hold Bertch Cabinet, LLC. responsible if a customer has not been made aware of the unique characteristics of the properties of their specific project, if those characteristics are within the standards established by Bertch Cabinet, LLC.

The undersigned must be either an Officer or Principal of the dealership. The undersigned understands their responsibility and acknowledges the conditions of this declaration, and will not hold Bertch Cabinet, LLC. responsible for these characteristics.

PRODUCT AWARENESS STATEMENT

DEALER NAME	ACCOUNT CODE	DEALER PO NO.	JOB NAME

**As the purchaser of this product, we want you to be fully informed of the characteristics below.
We cannot produce the product without these characteristics, therefore it is important that you find them acceptable.**

PAINT FINISHES TELEGRAPHING The paint finishes are applied to a solid wood face frame. Birch is a close or fine grain wood. Some "telegraphing" will occur, though the effect will be subtle. JOINT FRACTURE Because wood is a product which is in a constant state of expansion and contraction, hairline fractures will very soon be noticeable at the joints on the cabinet face frame and doors. These will not weaken the finish, but they will be visible. MITER DOORS When mitered doors are painted, the joints of the miter door will appear as the wood expands and contracts due to normal environmental changes.	SHRINKING AND SWELLING Shrinking and swelling occur as wood changes moisture content in response to daily (as well as seasonal) changes in the relative humidity of the environment to which the wood is exposed. When the air is humid, wood absorbs moisture and swells; when the air is dry, wood loses moisture and shrinks. This is a fundamental law of nature and is NOT a defect in materials or workmanship by Bertch Cabinet, LLC. Doors that swell and rub; center panels of doors that shrink and expose pre-stained areas; and miters that either open to the outside or widen on the inside at the joint are all examples of wood movement due to the consumer's environment. These effects should be minimized by maintaining a moisture content in the home (or, where the cabinets are stored) between 30 and 40% relative humidity (temperature between 50 and 80 degrees F).	WOOD VARIATIONS Some trees vary in color shades of white, pink, green, gray, and black. Some have even grain patterns; others can be quite wild. Some have worm tracks and pitch marks and mineral streaks. Some absorb stain readily; others practically refuse to absorb. Some tend to get darker and some considerably darker (especially Cherry) as time passes. Most combinations of woods and finishes are seen commonly, thus the final look is no surprise. There are a few combinations which are rarely enough seen that most people may be surprised by the aforementioned combination of independent characteristics and their effect on the visual appearance of the final wood product. Please see the Product Awareness Matrix for information on wood/color combinations that should be explained to your customer. VENEER DOORS The grain pattern will not always flow throughout the kitchen depending on the layout and length of the run of cabinets.	RUSTIC WOODS All natural characteristics of Rustic Woods may be represented in this product which include the following character marks: Solid wood will have character marks such as large knots and wane. Other characteristics include: small pin knots, bird pecks, worm tracks, mineral stain, irregular figures in the grain, cracks that do not hurt the strength of the part, sap wood and cherry pitch marks. Cabinet face frames, plywood returns, Tri Views, Oval Mirror and Medicine Cabinet, Wood Tops, Frieze Valances, Wood Hoods (plywood components, scribe and outside corner molding) will not be rustic. Available Moldings: CM, MCM, PR, FBM-T, FBM-C CLEANING CABINETRY Information on cleaning your cabinets is located on the Bertch website. https://www.bertch.com/support/cleaning-care/
--	---	--	---

The undersigned understands their responsibility and acknowledge the conditions of this declaration and will not hold Bertch responsible for these natural characteristics.
